NEED OF FINISHING DOCK

The big salmon dock owned by the Canadian National Railway has never been completed. Owing to the absence of a sprinkler you so willingly extended them has system there, the cost of insurance is abnormally high and shippers cannot afford to store goods in large quantities.

The matter was mentioned to Sir Henry Thornton when he was here last summer and again was brought up by Colonel Nicholls on feel that your friendship is sincerel. taking office as president of the board of trade this week. The lat- appreciated: that even though you are ter stated it would take about \$20,000 to complete the work and then it would be possible to store salmon there and recondition it and place in their hearts. make it ready for the market.

Prince Rupert is the logical place for this work and it might gift which we hope will remind you be handled here if efforts were made to get after it. This should be impressed on the railway company.

BRITAIN AGAIN LEADS

Britain is again leading the world. This time it is in naval disarmament. While the representatives of the government stood Prosperous New Year." for the right to build certain ships under treaty with the United States and refused to give way under pressure, they have now given way without a treaty and announce the intention to refrain from building the ships for which the right was demanded.

It seems a pity that this could not have been determined upon at the time of the Geneva meeting. However, it may not be too late be available for an extensive expansion to make a treaty with United States and Japan. The latter country is particularly anxious for such a treaty owing to financial conditions. perty and ore is being shipped steadily.

QUESTION OF TITLES

The question of titles in Great Britain is one that is often from the North Star mine for the windiscussed and is open to considerable controversy. It is noticed that ter, stated that the tunnel had beer while some leading men are never recognized, others get title after driven on the property fifty feet and title and seem to be continually in the public eye. One reason for the work was being carried on. this is known to be that some people absolutely refuse to accept titles as they do not believe in the system or they feel that there is dicate is ready to go ahead with its greater honor in being a plain citizen. Beautiful Gold Watch Sent From Seattle to E. A. Wakefield

Former Consul Wakefield who is now at Ensenada was agreeably surprised recently when he received a present by mail of a beautiful full jewel Hamilton watch with a platinum gold double chain. It came from the Fishing Vessel Owners' Association of Seattle. Writing to a friend here Mr. Wakefield says: It was certainly most unexpected. Naturally I was very much pleased to know that the masters and vessel cwners of the halibut fleet were so kindly disposed toward me."

Mr. Wakefield says that with the exception of three or four days during which four and a half inches of rain fell, the weather had been delightful since he reached Ensenada. The thermemeter on January 8, the day before he wrote, stood at 70 in the shade.

The watch which Mr. Wakefield received was inscribed "To E. A. Wakefield in appreciation of services rendered the Facific Vessel Owners, 1927," and was accompanied by a letter signed by H. Lokken, manager, as follows: "Dear Mr. Wakefield:

"The vessel owners of the Pacific Coast Halibut Fleet unite in expressing their regret at your departure from the American Consul's Office at Prince Rupert, B.C.
