RECOMMENDATION OF BOARD OF WORKS ACCEPTED BY COUNCIL AFTER CONSIDERABLE

The city engineer will be provided with a clerk to assist him with his office work while more important duties take him outside. A report making this recommendation was adopted by the city council last night. Applications will be called for a young man for such work at a suggested salary of \$100 per month. He will be required to have some knowledge of typewriting and book-keeping.

Ald. Greer, chairman of the Board of Works, stated that the city engineer's duties took him out of his office a great deal. It was desirable that somebody should be left to keep the office open and, for this purpose, it was felt that a boy would fill the

"Is it necessary that the suggested employee should have a knowledge of bookkeeping?" inquired Ald. Dibb. engineer's accounts.

nicely for the past year or two without until quite recently. be shown."

LAND ACT AMENDMENTS

PRE-EMPTIONS

Crown lands may be pre-empted by British subjects over 18 years of age. and by aliens on declaring intention to become British subjects, conditional upon residence, occapation, and improvement for agricultural burposes.

Fuli information concerning reguations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural land, i.e., carrying over 8,000 board and 5,000 feet per acre east of that

to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed

Pre-emptions must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be

For more detailed information see the Bulletin "How to Pre-empt

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland for agricultural purposes; minimum price for first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10. Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the con ditions including payment of stumpage.

HOMESITE LEASES Unsurveyed areas, not exceeding 20

acres, may be leased as homesites. conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES For grazing and industrial purposes areas not exceeding \$40 acres may be leased by one person or company. GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. grazing permits are issued based on numbers ranged, priority being gives to established owners. Stock-owners may form associations for range management. Free, or partly free, permits are available for settlers earnpere and travellors up to

50 YEARS BETTER HOME MADE BREAD

opined the alderman.

proposition for the reorganization of ing its passage. the department, I would suggest that he bring the whole thing forward right now and not piecemeal." He (Ald Collart) understood that the superintendent of utilities had a young man on his staff part of whose duties were to answer calls of the public works department. "Why not try to have such co-operation between the departments and keep down expenses?" inquired Ald. Collart.

NO STAFF INCREASE

Ald. Brown pointed out that there and formerly been a girl working between the utilities and public works been engaged part time in reading meters. The recommendation would ius mean no increase in staff.

Mayor McMordie felt that the city engineer had been very fair in connection with the matter. He had been rying for several months to get along without help and, consequently, had een engaged much of the time in doetc., that could be done for lesser salhad also been necessary on many ocsions to leave the office closed when he was outside. The Board of Works had decided to furnish the city engineer with a clerk in order to relieve him of certain minor duties while he government intends using the radio was outside. The department was now the engineer and the public, he felt that someone should be left in the office. He thought that the recommendation was a move along the right lines and would be glad to see the cuncil adopt it. The city engineer, he remarked, was too expensive a man to be carrying on certain work which. nder present conditions, it was neces-

Ald. Dibb inquired if the city engineer's clerical work could not be done in the general offices downstairs Mayof McMordie replied that the making of estimates on bylaw work was purely something for the city engineer's department to carry out, somethat could be better done under the direct supervision of the engineer. Ald. Dibb stated that he understood

there was duplication of work in the office of the city engineer and downstairs. He would like to hear what the engineer himself had to say about this. City Engineer H. A. McLean explained that it was necessary that his department should have some check on accounts so it would know where it stood. It was necessary to keep sufficient records always available to control expenditure. Otherwise, there might be over-expenditures and the department would never know where it stood. The engineer explained the system that was followed and expressed doubt as to the possibility of the work being carried on in the general offices. The finance department would know best what the capacity of the general office was . The engineer felt that there was little duplication under the system now followed.

OTHER ANGLES Linzey. He had had occasion to call There were other angles to the case The mayor took it that what was re-at the office of the city engineer many as well, stated Mayor McMordie. The quired was somebody to handle the times and often there had not even engineer had considerable running of been anyone there to answer the tele- lines and taking of levels to do. In "It seems to me," said Ald. Linzey, phone. As far as that was concerned, this the young man could assist him. "that the department has got along there had been an assistant engineer There was also the matter of timekeeping which was now in the hands of the extra help. Now that little work is go- Ald. Prudhomme pointed out that it general foreman and which put him ing on, I do not see where an increase was the idea of the Board of Works in an unfair position. The young man Capitol. 2nd grade, 1b. 45c of staff is warranted.
