#### STOCKS SELL IN EAST

So much attention have the B.C. mining stocks attracted of late that a number are now being listed on the Toronto curb market. That is an indication that they are really being considered seriously outside the province. That they will be much more in demand by outsiders soon is pretty safe prophecy. As money is still needed to carry on development work at many of the properties, the interest taken by outsiders in local securities should be a distinct advantage.

#### ARE PRICES TOO HIGH?

In a letter to the local board of trade read at the meeting Friday the general manager of the Consolidated Mining and Smelting Company mentioned the inflation of mining stocks and suggests that many of them are much over-valued. Doubtless this is true for the poor stocks are boosted up along with those that have merit and the public knows very little about what is being purchased. That is where the gamble in connection with mining stocks comes in.

#### CAN IT CARRY GRAIN?

According to the provincial member for Vancouver, the P.G.E. cannot and will hever be able to carry grain from the Peace River planted by the faster steam vessels, country to Vancouver. Grain is not easily hauled over mountains, especially when there are better routes available.

There is no doubt that Mr. Creery echoes the sentiments of settlers of California, and which sailed hundreds of others in regard to the P.G.E. The line should doubtless be completed to Prince George but it is pure futility to expect a floating studio. to convert it into a grain road. Before it can be used for that purpose it will have to be relaid with heavy rails, according to railway "Captain Salvation," Cosmopolitan's authorities, the curves will have to be straightened out at enormous Wallace's novel, directed by John S. expense and the grades cut down. In fact the line will have to be Robertson at the Metro-Goldwyn-Mayer rebuilt.

But why do all this when there is already a good road to tide- made while the picture was being filmwater at Prince Rupert?

#### DON'T BE THIN SKINNED

Now and then Prince Rupert is the subject of a knock. But That is why we sometimes publish in this paper letters directed FOOLBALL PLAYER IN we must not be thin skinned about that. Every knock is a boost. of the adversary we begin to feel that life is really worth living.

The other day an eastern financial paper had some little jeers to make at our expense but knowing our tendencies the funny man closed with these words:

"If we carry on with these comparisons any longer we are going to have the good citizens of Prince Rupert passing resolutions about us so we sign off."

#### MONTE BLUE HERE IN "BLACK DIAMOND EXPRESS" TONIGHT

Monte Blue, as Dan Foster, engineer, epitomizes all that is fine, strong and loyal in the railroad man. His pride is that he is always in on schedule, that he can put bread in the mouths of his widowed sister's children, that he is in with the men of the Brotherhood.

That the speeding car of a joy-riding society girl should crash into his train, causing the first accident identified with his name, is a grief to him, but this is forgotten in pity for the girl. Monday, Feb. 6, 1928 Pity turns easily into love, and before ne knows it he is engaged to a girl whose mother cames to plead that she cannot stand poverty.

The engineer's brother goes to the dogs, and for the girl's sake Foster gives her up. When she marries the rich man, Foster is the engineer on the express that carries her private coach and bridal party. Bandits hold up the train. One of them proves to be Foster's brother. Terrific are the adventures he goes through to keep his honor clean.

"Black Diamond Express" is to be ilmed here tonight.
