- PHILCO RADIOS are equipped with a phonograph pick-up jack no switching or removal of radio tubes is necessary to change from radio to phonograph re-production.
- THE WONDERFUL CLARITY AND NATURALNESS of the Philco speaker will be preserved indefinitely under all conditions. The seven-inch cone, made of special acoustical parchment, is floated in a ring of softest chamois, which improves the tone quality by its slight dampening effect.
- FOR SELECTIVITY AND VOLUME without distortion on either distant or nearby stations there is no radio that can compare with the Philco "neutrodyne-plus" ELECTRIC RADIO.

And the Philco gets results WITHOUT AN AERIAL.
