SEATTLE WON HOCKEY GAME AT VICTORIA

Beat Cubs Two Goals to Nil Outplaying the Home Team

VICTORIA, Dec. 5:—Seattle's band of puck chasers strengthened their grasp on their leadership of the Pacific Coast Hockey League here last night, when they invaded the lairs of the Victoria Cubs and grabbed off two points by a two to nil win. The locals were badly crippled by the absence of Cliff O'Meara.. Victoria fought hard all the way but fell short of the exhibition produced by the Eskimo squad who showed dazzling three man combination rushes and tore holes in the local defence on several occasions.

Both of Seattle's goals were scored in the second period.

Around The World With Sport Fans

(By The Tramp)

Mayor Burton of Hamilton has started the civic machinery with a view to securing the next Wrigley Marathon swim for Burlington Bay in the neighborhood of the Ambitious City. He and other representatives of the corporation propose to interview the Chicagoan and impress upon him, if possible, the merits of the famous bay as a course for the long paddle. If the waters of Burlington Bay are as subject as those of Humber Bay to extremes of temperature the Hamiltonians will have to guarantee Mr. Wrigley that the competitors will not "quit cold." In any part of Lake Ontario or other of the Great Lakes the only means of avoiding cold water for the event seems to be to make alternative dates for the swim. The women's Marathon here was contested in water of quite suitable temperature. A week later the mercury plunged when the temperature was taken. A few days after the men's swim the water was even warmer than on the occasion of the women's Marathon.

Forces are being lined up in the State of Maryland to fight the racing interests at the forthcoming session of the Legislature. Maryland is the racing centre of the east, having supplanted New York to a considerable degree since the anti-betting laws became operative in the Empire State. The fight will be largely political, although independent interests have allied themselves with the opponents of the Administration. The anti-racing factions have met with some success in Ohio, but they will meet with more stubborn opposition in Maryland, where the sport has been popular and successful for generations, and where it is conducted on a most desirable plane.

SPORT CHAT

For years it has been Rogers Hornsby's ambition to be a member of the Chicago Cubs baseball team. As long ago as 1925 Hornsby asked if it would be possible to negotiate a deal that would take him to Chicago. Since then he has made a "Cook's Tour" around the league. Always a great ball player, the best right-handed hitter in either league, a conscientious workman, giving his best every day, for some unknown reason he has proved a "white elephant" on the hands of different club owners. Whether this is because of a big salary, a dynamic, independent personality that will tolerate no opposition, or some other reason, the fact remains that one of the greatest ball players and hitters of all time is shunted about from club to club.

Hornsby believes he will have a good chance to tie or break Babe Ruth's record of sixty home runs in one season, if he plays with the Chicago Cubs. The Cub ball park is made to order for a long right centre hitter like Hornsby. It will be interesting to see if Rogers' pet ambition is ever realized.

Just about the funniest shuffle in baseball was the shift which sent Bill McKechnie, who won a pennant for St. Louis Cardinals to manage the Rochester team in the International next season and brought Billy Southworth back to St. Louis from Rochester in McKechnie's place. It is really a change in departmental heads of the same organization. There are a number of baseball stores in the Cardinal chain. Just how many it is hard to say off-hand. But St. Louis and Rochester are two of them and possibly the shift was purely a matter of policy as the Cardinal Chain Store Corporation has shown a desire to make these annual shifts in the past. And, after all, a policy is a policy and not a thing lightly to be disregarded, no matter how bad it may be.

TO CULTIVATE BOXING CHINA

NANKING, China, Dec. 5. — Some of Gene Tunney's successors may meet a Chinese champion one of these days if the aim of China's boxing promoters is achieved. The government has organized a boxers' bureau and elimination contests are to be held in various parts of the country for a tournament in Nanking.

Dr. C. T. Wang, minister of foreign affairs, has taken a great interest in the new national institue of boxing, of which General Chang Chi-kiang, former military governor of Charhar, is the director. The general plans to preserve the old style Chinese boxing, which originated here about A. D. 500, and at the same time introduce the western type of fighting, which would make it possible for the Chinese to meet opponents from other parts of the world.

The Chinese system of boxing, as practiced thousands of years, is more of a graceful exercise than boxing as it is known in the United States, and no blows are struck.

General Chiang has requested the provincial authorities to send candidates for honors, as well as experts in the sport to the boxing tournament here this fall.

Why—
Children need BOVRIL

Children need Bovril to fortify them against cold and illness. Bovril is the best of the beef in its most concentrated and digestible form.

The special body-building powers of Bovril are due, partly to the actual nourishment in Bovril itself, and partly to its unique power of enabling the human system to derive far greater nourishment from the ordinary diet. It assists development and increases stamina. Give the children Bovril every day for a month and note the difference.

The Body-building powers of Bovril have been proved by independent investigation to be from 10 to 20 times the amount taken.
