It is very satisfactory to know that the finances of the country are in good shape. A despatch from Toronto Saturday stated that all small maturities of outstanding bonds would be taken care of without further borrowing up to the big victory bond loan which matures in 1933. It amounts to four hundred million dollars and some of it at least will have to be refunded.

It is a good thing to keep the taxes as low as possible Sentenced to ten years' imprisbut also it is even more important to keep the financial onment on the isle of St. Noir condition of the country above reproach. That is what for putting to death one of his the present administration seems to be doing and in that they will be supported by members of all parties.

Magnificent indeed is the Warner special, "When a Man Loves" starring John Barrymore, showing here at week end at the Westholme. The direction is by Alan Crosland who was responsible for the splendors of "Don Juan" and the story is laid in the golden age of France depicting the fabulous riches and unspeakable poverty ir the days of Louis XV.

It retells the well-known and passionately beautiful love story of Manon Lescaunt and Fabien Des Grieux, two youths whose devotion had been to religion until their chance meeting, aroused within each, the fires of unquenchable love.

"When a Man Loves" is a production to acclaim from the house tops.
