FORTUNE FOR SEAT

On Saturday the sum of \$350,000 was paid for a seat in the lights. New York Stock Exchange entitling the owner to do business there. The huge price is the result of the increase in business of late enabling more money to be made by the brokers than ever before. Most of us, if we had the price of a seat, would not want to engage in business. It seems a lot of money to pay but doubtless the results his own sermons, while my mother had feats were not delivered before an audiare satisfactory or the seats would not be sold.

This cenotaph is one way we can show our appreciation of the sacrifices made by those who went overseas. Doubtless it will appeal to everyone as a worthy object.

Dealers say they would rather do business when the market is high than when it slumps and of course the fishermen are of the same mind. Just now the Lenten season is drawing to a close and the demand should be good for another week.

BUSINESS IN CANADA

The business of Canada is steadily expanding. An advertisement published on another page is interesting in that it shows some of the business being done by this country.

The advertisement mentions several essentials in doing business. They are that goods must be up to the quality represented. They must be properly packed and delivered promptly. This is true in all lines of business whether with people at home or abroad.

The advantages of export business are set forth as tending to lower prices and stabilize employment, both most desirable ends. Mass production is come to stay and only those firms that manufacture in quantities can expect to compete.

It is particularly noticeable that the accompanying map gives a steamship line from Prince Rupert to the Orient, something for Which we have been planning and hoping and which seems in a fair FAIRBANKS AS way to being accomplished. At present only occasional grain use the route.
