NEW NAVAL DISCUSSION IS PROPOSED

CONDITION OF KING GEORGE CAUSES WORRY TO EMPIRE

Joint Meeting of Parliamentary Committees of United States and Great Britain Suggested by U.S.

Chairman of Naval Affairs Committee of House of Representatives Takes Initiative View to Equalize Sea Power of Two Countries

WASHINGTON, Nov. 28.—In a cablegram to Premier Baldwin, Chairman Britten of Illinois suggested a joint meeting of the house naval affairs committee and a committee of the British parliament, to discuss equality of sea power between United States and Britain on all classes of warships unaffected by the Washington arms conference. It is suggested that the meeting be held in Canada after March 4 and that the committees report recommendations to their respective governments, as the results of the discussions in the manner of similar methods used by the inter-parliamentary union.

Britten said the cablegram was prompted by Mr. Baldwin's statement on November 13, expressing a desire for more frequent personal discussions between the United States and British representatives, to lead to a better understanding and feeling between the peoples and governments of the two countries.

Canada Is Interested

OTTAWA, Nov. 28.—Canadian government officials declared that the suggestion of Representative Britten of Illinois to Premier Baldwin for a conference in Canada of the United States house naval affairs committee and a committee of the British parliament to discuss equality of sea power was the first intimation received here of any proposal for such a meeting.

The suggestion carried in the Washington despatch was viewed, in official circles here, as a "very interesting one."

Fate of Halibut Vessels Brunvol and Imperial is Subject Only of Conjecture as no Word is Received

The tragic expectation of many who are acquainted with the situation seems now to be that the two Seattle halibut boats, Brunvol and Imperial, both missing for two weeks, or those on board may never be heard from again. Though there is still hope, it is fast glimmering out as time passes and the vessels continue unheard from. Hope is waning at local headquarters of the Deep Sea Fishermen's Union, which has asked to be informed immediately anything is heard as to the fate of the two vessels, each carrying a crew of four or five men.

Both are Seattle boats. The Brunvol, built in 1926, is owned and skippered by Capt. Charles Blomquist. One of the members of the crew is Fred Lundquist of this city, whose wife and two children reside here.

Capt. James C. Rohmen is owner and skipper of the Imperial.

J. M. Morrison, local agent of the Deep Sea Fishermen's Union, received a wire from Ketchikan this morning stating that nothing definite had so far been learned of the Brunvol or Imperial. The United States government cutters Unalga and Cygan returned to Ketchikan after a five-day search to the westwards for the missing boats, but reported no success in locating them.

The schooner Akutan, donated by its owners, outfitted by contribution and manned by halibut fishermen, left Ketchikan at midnight last night to search in the vicinity of Middleton Island and Cape St. Elias, where the Brunvol and Imperial were last reported on November 15.

Mr. Morrison gives no credence to a report that has been circulated stating that a boat had arrived which had found the mast of one of the missing vessels. Mr. Morrison was in touch with the men on the boat referred to and they conveyed no such information to him. He believes that it is an idle rumor.

Prince of Wales Speeds Homeward on Account of Illness King George

Bulletin on Condition of Patient Shows No Improvement Up to Eleven o'Clock This Morning

LONDON, Nov. 28.—A letter from the King's physician, Lord Dawson of Penn, submitted to the cabinet this morning said: "His Majesty is suffering from inflammation and congestion of the right lung, with extensive plastic pleurisy on right side."

LONDON, Nov. 28.—(11 a.m. bulletin)—"The King passed a quieter night. Temperature and general condition remains as before."

DARES, Salarn, Nov. 28.—The Prince of Wales is expected to arrive here at 5 o'clock this evening. He will immediately board the government boat Azania, eventually transferring to H. M. S. Enterprise, which is to take him to London. The prince travelled by special train from Dodoma, after notifying Premier Baldwin in London that his brother and himself were returning to England as soon as possible.

The exact whereabouts of the Duke of Gloucester is unknown, as the two parted company some weeks ago in the course of their hunting trip in Africa. The prince made his decision to return on account of the King's illness without any request to do so, it is understood.

LONDON, Nov. 28.—There must be anxiety, the letter said, due to the infection which naturally must be serious. The condition of the lung, however, was somewhat improved and, the letter pointed out, the King's strength had been maintained. Lord Dawson stated that the illness was thus far being controlled and its force lessened and he hoped its duration would be curtailed.

LONDON, Nov. 28.—(8 p.m.)—A bulletin issued here says: "The King passed a fair day with some sleep. Otherwise conditions unchanged."

UNITED STATES NAVY LARGER IN MAN POWER

LONDON, Nov. 28.—Rt. Hon. ... an, first lord of the admiralty, read a list of figures last night in the house of commons to show that the personnel of the British navy had been decreasing since the war, while the personnel of the United States navy had been rising. The figures indicated that the United States navy was larger in man power now than the British.
