profitable, producing busis.

AS a consolidation of two famous mines of the Slocan district of British Columbia, the Noble Five Mines Limited offers one of the most attractive mining investments we have ever offered to the public. The consolidation comprises the Noble Five, with a production record of more than half a million dollars, and the Surprise mine, with more than \$2,740,000.

The Noble Five was developed by the late Hon. Jas. Dunsmuir, Lieutenant-Governor of British Columbia, who spent \$750,000 on a mill, power and underground development. Those now purchasing stock get the benefit of this through quick development of ore, cheap mining and immediate concentration of ore products without delay and cost of mill construction. The property was ready for concentrate production at the time of Mr. Dunsmuir's death.

Shipping ore from the Noble Five runs 30 to 90 oz. silver per ton, 18 per cent. to 60 per cent. lead, and 8 to 20 per cent. zinc. Surprise ore runs 47 oz. silver, 18 per cent. lead and 16 per cent. zinc. These two properties will be operated through the one underground tunnel system. This unsurpassed combination of producing properties presents an opportunity that receives our unqualified endorsement. We offer, subject to

immediate acceptance, stock at the pre-listing price of-

### OUR RECORD

MILLER, COURT & CO. LTD. offer Noble Five Mines Ltd, to the public in keeping with their policy of carefully selecting properties whose merits have already been demonstrated. This offering has our unqualified support as we believe it to be one of the most attractive mining developments we have been associated with. This issue consists of 1,000,000 shares, the proceeds going towards purchase of the property, equipment and comprehensive underground development. We take this opportunity to recall three issues which have achieved noteworthy success under Miller, Court sponsor-

Cork-Province was originally offered by us at 5 cents a share. Today it is 50 cents, with preparations well in hand to equip it with a \$60,000 hydro-electric plant and the remodelling of its mill to modern flotation. Sufficient ore is blocked out to assure years of successful operation.

Whitewater was originally offered by us at 25 cents. Today it is producing silver-lead-zine concentrates and is operating on a very profitable basis. The price of the stock has advanced to \$2.75 a share. 25 years' ore in sight. Pend Oreille, originally offered by us at 25 cents.
