INSANITY AND CRIME

Crime is usually the result of insanity. People in a nor-placement of 10,000 tors, and the mal frame of mind do not commit murder. Insanity may consequent reduction in volume of be the result of disease, heredity or too much introspection. fire is unlikely to be accepted. People who live very much alone, either in the country or sible expedient is being adopted to in the cities, are apt to become eccentric and this accentu- save weight. A very high grade ated becomes insanity. The sheep herders of Montana of steel is being used throughout. often go crazy and so do men who live to themselves in Electric welding is to take the outlying parts of British Columbia.

It is probable that there is no particular increase in at between 400 and 500 tons. has been so perfected that very few crimes happen that go SCHOOL MATRON

yet they go to the movies to see crimes enacted in the pictures or they read Shakespeare. It is well that we should know what sort of world we are living in, so that, if possible, steps may be taken to improve conditions. If we one of Three Women on Northern learned only of the beautiful things of life, we should be ill-prepared to go out into the world. At the same time, it is not wise to allow ourselves to dwell too much on the abnormalities of life, but rather feed our minds vi thoughts of beauty, health, joy and peace.

STEWART'S GOOD WISHES

In its Christmas greeting the Stewart News save "The Stewart News wishes the world and Prince Rupert ern Slave Lake was covered was

a very happy Christmas and a prosperous New Year." Prince Rupert is singled out for special mention, doub less because it looms large in the minds of the people of northern camp. We hope it will loom much larger prettsoon. At any rate, Prince Rupert will reciprocate the go wishes of the Stewart News. The people here hope to son large city at the head of Portland Canal. They hope to white-within 40 miles of St. see a railway operating, dozen of mines shipping their John's school, where 20 young Inore, possibly a smelter in operation, and great prosperity dian boys and girls are in resicoming to the people of that live town. In the bringing dence. There is little time for about of this, it is hoped Prince Rupert will be one of the factors, if only a small one. Prince Rupert people are big there is the health work, and many enough to wish success to every section of this great country.

Ten Thousand Ton Craft Expected to Be Mounted With Six-Inch Guns

that the new ship should be classed as a small battleship for coast ing, returns indicating the conserdefence. No doubt her speed will vative nature of the ore valuations be higher than the nominal 18 of the late James Cronin. Speci- A mining party, headed by E. Saint John, N.B., sailed from Halof contemporary 10,000 ton cruisers, ranging from 31.5 to 36

sion. The ship will be unusually broad of beam, with comparatively light draught-doubtless with a view to possible in-shore operations in the shallow waters of the Baltic. This suggests that her machinery will have to be arranged on a novel plan, in view of the amount of head coom required for an ordinary Diesel installation.

Various armaments have been proposed for this singularly original design. The most plausible includes six 11-inch guns as its main feature. It is by no means! out of the question for heavier guns than this to be mounted. But the question of weights is bound to enter into the matter.

The Krupp 12 and 14-inch pieces weigh 47 and 75 tons respectively, against only 36 tons for the 11-inch. It would not be possible, therefore, to carry so many of the bigger guns on a dis-

place of riveting, with a resultant

Mission Field Tells of Work There

EDMONTON, Dec. 22.-Travelling four days by wagon through mud which at times threatened to be unconquerable and sleeping by night in the open until the ninety; miles between the Anglican Mission school at Wabasca and Norththe experience of Miss H. Dawes, matron of the school, who arrived from the north recently. With two other white women, the nurse emloyed by the Indian department. and a teacher in the Indian school, Miss Dawes makes the third and loneliness, however, because, in services these women go out to perform for their Indian neighoors. Miss Dawes said it was not unusual for them to return from some of the Indian homes at 2

o'clock in the morning. . Then there is the farm in connection with the school, with milk to be taken care of and butter made to supply the institution. Vegetables are grown in quantities that last the year around and chickens raised on the farm furnish the egg supply. Christmas is the busiest day of the year for those in charge of the school. In addition to a very fine concert for which the children are trained and the visit of Santa Claus, Christmas dinner is served to everyone who comes far or near to attend re-

ligious services.
