ADVERTISING

As an advertising medium the Prince Rupert Daily News has a wide appeal. Not only is it read by the people of Prince Rupert, many of whom look to it for mercantile guidance, but it reaches out to the country districts where its arrival is awaited with eagerness. The mining camps and the towns of the interior look to it for the first news of the outside world.

Prince Rupert people who wish to reach the surrounding districts find there is only one medium, that of the Daily News. It is better and cheaper than any other advertising medium and can be depended upon to bring results if anything can.

Past and Present

In the past when only about 1500 papers were being sold, advertisers in the Daily News claimed they got good results from outside points as well as in the city. During the present year the circulation has increased over a thousand, and the appeal to . advertisers is consequently that much the wider.

Wisdom of Advertising to Keep Goods Moving

Very few merchants seem to realize the cumulative effect of advertising. Every new customer secured is worth a great deal and this new customer becomes an advertiser for orners, if he is well treated. The newspaper not only brings customers direct but prepares the way for the spread of business by personal contact.

The advertising manager will be pleased to talk this matter over with prospective advertisers and show them the newspaper's mailing list.
