Greater Activity This Year on Queen Charlotte Islands Already Made Evident by Preparations

THE steamer Prince John, arriving in port last night, brings news of general activity on the Queen Charlotte Islands in preparation for the approaching salmon fishing, whaling and timber season. The prospects are that there will be a general revival in the various industries this year with possibly a larger number of men than ever before employed.

Both at Rose Harbor, on the south end of the Islands, and Naden Harbor, at the north, preparations are in full swing for the whaling season and it is expected that the boats of the Consolidated Whaling Corporation will be arriving from Victoria soon. At Rose Harbor, the wharf has been rebuilt.

McGeer Urges Building P.G.E. Into Peace River at Cost of \$30,000,000

Tells Vancouver Board of Trade he Does Not Fear Prince Rupert Will Get Grain Although Some will go There

VANCOUVER, An investment of \$30,000,000 for the completion of the Pacific Great Eastern Railway from Vancouver to the Peace River would create a railroad with a replacement value of \$58,000,000, G. G. McGeer said in an address before the Vancouver Board of Trade last night.

Within five years of completion, the speaker said, the line would pay all the expenses out of operating revenue. A further \$15,000,000 would be ample for all contingent purposes in the development of traffic, including colonization. The value of the lands adjacent to the railroad when completed, he said, would be \$90,000,000 within a few years.

The completion of the P.G.E. is fourteen years overdue, McGeer said. "I am not afraid Peace River wheat will go to Prince Rupert. Some will go there. There will be lots for all. Nor am I afraid that the construction of the short line from Stewart to the Peace will take the trade away from Vancouver. For a great many years to come Vancouver will be the chief and most logical centre for the grain trade of the Pacific."
