DAILY EDITION

THE NEW THEATRE CONTRACT

It is very satisfactory that a local contracting firm has been sent, bemoaning lack of appreciation. able to secure the contract for the new theatre. Mr. Aivazoff also talked about their time being as valuis to be congratulated on having given the contract to a local firm, able as that of those who weren't there even though, as he says, he had good tenders from Vancouver con- and certain hopeless ones were thinkcerns.

Mr. Aivazoff is a man who has travelled a good deal and has executive of the Junior Football League investigated conditions in many cities. The fact that he chose who were staging a meeting of their Prince Rupert as the place to put his money is an indication that own downstairs in the City Hall. Meanthis city stands well in his estimation. The amount invested by the time one or two more of the faithful time the theatre is completed will be close to \$100,000 and that is a dropped in and relief was general. So, good deal for residents of Vancouver to put in here.

### SHOULD BE EXPLANATION

We think Mr. Newton should give the people of Prince Rupert with. Members of last year's board. an explanation why he changed his mind in regard to the Conser- while willing to assist the new board in vative nomination. He made a public announcement in his paper every way possible, felt satisfied that and now he has gone quite contrary to it. Without any suggestion they had done their share and declined of hostility to him we suggest that he owes it to the people who to be nominated. It was evident that have so many times elected him to explain why he broke his word to there was going to be no mad scramble the Conservative party. The announcements have been public so the explanation should be public.

### DIVIDENDS ON PREMIER

It is to be assumed that no reasonable man would suggest that the dividends on the Premier mine could well be continued at their present rate. It is too much to expect. The people who bought stock in that company expecting it must have been foolish. The company will probably pay good dividends but not as high as those being paid now. Whether the dropping off will commence at the next quarter or be delayed for some time we do not know but it is hinted that there will be a change immediately.

### THEY SHOULD STEP DOWN

Much conversation on the street has to do with the probable action of the Conservative nominating convention next week. We tie for ninth place between Mr. Gillis suggest the best thing to do would be to call off the convention. What chosen is the good of meeting? They are now helpless. "T'VE been delivering telegrams in Toronto I for years, same as the rest of the lads, in all sorts of weather. I know what I'm talking about when I say the bike's the only way for us.

### It is Easier to Ride in Crowded Streets

"I'd a mighty sight sooner be on the wheel down-town than on my feet. I can get around a lot easier, and safer, too.

### We Ride all the Year and No One Gets Hurt

"There isn't much chance of getting hit, because the motorists sort of look out for you. Only five of our seventy boys got touched last year and no one was hurt.

### Cheaper than Street Cars and Quicker than Autos

"Besides, look at the money I save. I'd use the price of a bike on a street car in a very short time. And I couldn't get in a quarter of the trips I make now. None of those traffic jams for me. I slip around them."
