For your own interest, there is one thing you should do, and that is, to learn for yourself what Chiropractic is, what it has accomplished, and what it can accomplish for you at need. This is stated regardless of your present state of health.

All health authorities agree that prevention is better than cure, and no sensible person can disagree. Lacking in modesty though it may seem, I confidently state that Chiropractic can do more to prevent disease than any other agency, for it removes the cause.

By my chiropractic health method I correct diseases of the eyes, ears, nose, throat, lungs, heart, stomach, liver, kidneys, bowels and lower organs.
