#### FIRE PREVENTION WEEK

This the fire prevention week throughout Canada, the idea being to try to educate the people, especially through the schools, to the necessity of guarding the forests against fire. Carelessness is the cause of most of the trouble.

While Prince Rupert is not often troubled with forest fires the interior country, which is neighbor to this, suffers considerable losses therefrom and Prince Rupert people often visit these more arid sections. The lesson is obvious. It pays to be careful.

#### EMPIRE SHOPPING WEEK

This is Empire Shopping Week when an effort is being made to push forward the trade within the Empire movement. Prince Rupert did not form any committee, as in other places, to forward this cause, with the result that we hear little of it here. In other places great activity is being shown and even at Terrace they have made an effort in that direction.

#### PAY INCOME TAXES

This is the last week for paying income tax to the Dominion Government in order to avoid any of the penalties provided by the statute. The tax is paid by all who receive two thousand dollars or more and the amount is graduated so that the richer people pay a higher rate until the person with an annual income of half a million dollars pays half of it to the government as tax.

Married people pay only if they have \$3,000 so that there is a bonus for those who undertake household duties. The thing to remember is that the taxes are due this week and should be paid.

#### VARIOUS ACTIVITIES

There are various other matters in progress. The Cenotaph committee is getting busy on collections for that fund with a view to cleaning up and getting the work under way. The Salvation Army is canvassing for their annual self-denial fund, and all the time business is rather quiet because of the low price of fish. However, all these things will change and the payments will be made and people will carry on as usual.

#### WISH TO OPPOSE SOMETHING

Most of the circulars and open letters that reach a newspaper office are not requests for assistance, although large numbers are along that line. Most of them are requests for us to oppose something. We are a race of objectors. We set ourselves up as watchdogs who are ready to pounce on any activity, no matter how beneficent.

Large numbers of people either inherit or have developed an opposition complex. They would much rather oppose something than help something along. The aim of their lives is to stop anyone else doing anything. They hate activity.

While it is true that some activities are malevolent and need scotching, it is also true that most activities are beneficial and should be encouraged. Those who are active in some cause seldom have time to cast stones at any other cause, with the exception of religious and political movements. The busy person is the one who has not time to worry over what the neighbors are doing. Constructive activity is worth a great deal more than destructive activity. We need more of it.

## Diabetes Mellitus

Diabetes is not a kidney disease as many people think, but a condition in which the kidneys become involved, and ultimately break down as a result of their strenuous efforts to eliminate sugar from the blood stream.

The presence of sugar in the blood has a double significance. It points out that the cells of the body are not assimilating the much-needed carbohydrates so necessary to its physical economy, besides the irritating effect it has on the kidneys in the discharge of their duties.

Up to date all so-called cures for diabetes mellitus have proved a complete failure.

By my natural methods I do not combat the disease, but aid the natural tendencies of the system to right itself in a crisis.

If you are suffering from diabetes I will be glad to have you call in and allow me to go into your case in detail. This consultation service I will gladly render free of charge.

## TERRACE WILL SPEND MORE IN PRIZES AT FAIR

### MEETING DECIDES ON VARIOUS AFFAIRS TO BENEFIT ORGANIZATION

TERRACE, April 24.—The Fall Fair Board held a meeting in the municipal hall on Friday evening which was presided over by President H. A. Swain and at which eight members of the executive were present.

The secretary reported that the revised prize lists had been turned in and the total amount of prize-money asked for was \$397.95, an increase of \$111.20 over last year's lists. J. K. Gordon moved that the lists be accepted as prepared and a special effort be made to raise the money to meet the increase. This motion was carried.

A motion that horse or pony racing be instituted as an attraction for fair day was passed.

Representatives of the Boys' and Girls' Club of the Women's Institute reported that twelve children had joined the pig club, three the chicken club and six the garden club, and lists of prizes were made out for these, a big percentage of the prize money being paid by the agricultural department through the institute.

The finance committee reported having met, but no definite action had been taken in the matter of financing. It was suggested that a dance be held sometime soon and the meeting set the date for Friday night, May 11, in G.W.V.A. hall. The chairman and secretary were delegated to arrange for hall and music while the catering will be in the hands of the Women's Institute.

It was also suggested that it might be possible and profitable to get up an amateur play in aid of fair funds and it was decided to try to do so sometime in June.

The secretary was asked to submit samples of the prize-lists to different printing firms for quotations on printing.

The next meeting was set for Friday, May 18.

## MUSICAL EVENT UNDER PARENT-TEACHERS AT TERRACE EXCELLENT

The proceeds of the collection taken at the door amounted to \$12.25.

## FORMER RESIDENT OF INDIA ADDRESSES TERRACE AUDIENCE

TERRACE, April 23.—Following the business meeting of the Parent-Teachers, Mrs. A. W. Robinson gave a most interesting and very instructive talk on "India in Contrast." Having resided for eleven and one half years in that country, Mrs. Robinson gave much first-hand knowledge of conditions and customs in India. Contrasts within the country were pictured with regard to physical features, climate, languages, dress, appearance, actions disposition, cleanliness, modesty, religious devotion, living conditions, mannerism, etc., as well as contrasts in buildings, streets, cities, etc.

The speaker showed the style of dress worn by the women and illustrated the method of dressing by using one of her audience as a model. She explained marriage rules and forms, and the deplorable condition and unhappy lives of the girl widows of India and brought out the contrast in the living

conditions and happiness of the people before and after becoming Christians.

Mr. Robinson treated the audience to some weird Indian music during the evening. Following the talk a hearty vote of thanks was tendered Mrs. Robinson for providing one of the most interesting evenings entertainments in the history of the P.T.A.

## Man in the Moon

This is Man in the Moon week. I have decided after this to look after myself.

The man I admire is the one who washes dishes for his wife and does not complain.

Terrace banana trees will soon be in bloom and the mosquito plants will be hatching and the people there will be playing golf.
