SADDLE MINE AT HASTINGS ARM ABOUT READY TO SHIP

Lone Woman Tramps to Dawson from Hazelton Distance of 900 Miles

Was None Worse For Her Trip and Would Not Tell Why She Had Made the Long Jaunt and What She Would do Next

DAWSON, October 8.—Completing an overland and river journey of about 900 miles over mountain trails through a country that would tax the courage and resourcefulness of a veteran trail brazer, Lillian Alling, a young slender woman, arrived here from Hazelton, B.C., from where she started on a long wilderness jaunt last June.

Apparently none the worse for her long lonely journey, Miss Alling would not divulge the object of her visit

HARVESTERS RETURNING

They Refute Former Complaints Regarding Conditions in Canada

LONDON, Oct. 8.—British harvesters who returned to Britain yesterday landing at Liverpool strikingly refuted complaints concerning conditions in Canada brought back by other harvesters. Many of those arriving yesterday have been quite successful in Canada. Many found steady employment at wages from three to four dollars a day and some were able to pay their passages home at the special rate of sixty dollars.

DOUKS FINED SUM OF \$600

Shipped Fruit Without License and Refused Permission to Inspect Records

NELSON, Oct. 8.—A fine of \$500 for shipping fruit without having a license and another of \$100 for refusing to permit a representative of the committee of direction to inspect its records was levied against the Christian Community of Universal Brotherhood by Stipendiary Magistrate Cartmel on Saturday. He found the community guilty of two infractions of the Produce Market Act.

The community offered no defense testimony in either case.

APPEAL IS DENIED TO EDWARD HICKMAN

WASHINGTON, Oct. 8.—William Edward Hickman, under sentence of death for October 19 for the murder of Marian Parker, was today denied an appeal to the supreme court by Mr. Justice Sutherland.

WHOLE FAMILY WAS KILLED IN COLLISION

DELTA, Utah, Oct. 8.—The whole family of eight were killed Sunday when an automobile in which they were riding was struck by a train near here. The killed were Mr. and Mrs. Erickson and six children.

beyond stating that she had one more place to go before returning to Dawson to seek work. Leaving Hazelton she followed the Government Telegraph trail to Whitehorse, then to Stewart Crossing. There she obtained a small boat to make the final 70 miles down the Yukon River, the last lap of which she made against chill north wind and in a swirling snowstorm.

Local advices indicate that Miss Alling is a foreigner, probably Polish, speaking very little English. She is a man-hater and always tried to be alone. She started to make the journey to Dawson early in the season and got as far as Third Cabin when she was turned back by the police and convicted at Hazelton of vagrancy and sent to Okalla. She did not stay in the south long but returned and again started, this time with money on her sufficient to give her right of way. She usually camped outside except when she found vacant cabins. At Atlin she stopped only long enough to buy a loaf of bread. She refused an auto ride between Carcross and Dawson, preferring to follow the trail. From the little information that could be obtained she seemed to know something about the trail and where she was going and was persistent in getting there.

Hastings Arm Mine Now About Ready For Operation and Ore Will be Shipped to the Smelter

The tramline which is being constructed at the Saddle property on Hastings Arm by the Silver Crest Mines Ltd. is expected to be completed and ready for operation by the end of this month, stated P. E. Peterson, M.E., consulting engineer for the company, who was a passenger aboard the Catala last night bound north to make one of his periodical inspections of progress of operations at the mine. On completion of the tram line, shipments of high grade silver-lead (cube galena) ore to the Trail or

other smelters will be at once instituted. The tram line, which is a considerable engineering achievement, scales a steep slope from the mine to the beach, reaching an elevation of 3,000 feet in a distance of 4,000 feet almost perpendicularly. Development of the mine continues steadily, work now being concentrated on a main tunnel which is now in 350 feet and is expected to strike the main ore body in another 300 feet. The property is highly mineralized, rich ore having been encountered in short shafts as well as by open cuts. The ore is so high in lead content that it is not a concentrating proposition.

While in the north, Mr. Peterson will as well make an inspection of the Tiger mine in the Upper Kitsault Valley at Alice Arm which is under development for the Utility Mining & Financing Co. and for which Mr. Peterson is also consulting engineer. Work will be continued on the property throughout the winter. E. C. Pickett, owner, who has been foreman in charge of operations during the summer, will be going south in about a week's time to spend the winter in California.
