News of the Mines

AROUND PRINCE RUPERT

Dunwell Is in Limelight Again; Toric Mine Makes Second Concentrate Shipment; Telkwa Coal Mine Busy Again

The Dunwell mine is much in the limelight again as a result of the radiore or electrical prospecting campaign which has been carried out on the property. A successful electrical survey was carried out on the Hidden Creek! property at Anyox for Granby Consolidated, and now Dunwell was tried out by the same means. The party at Dunwell was in charge of R. C. Kirkpatrick and his companions were W. McGowan, G. L. Oates and Mr. Schrader. F. F. Clarke, supervisor for the prospecting company, also arrived from northern Manitoba"-

Dunwell camp.

in California. The first shipment of a few weeks ago was made to PEACE RIVER MAN Tacoma, but owing to an increased DIES IN HOSPITAL amount of lead in the concen-

trates, it has now been decided to treat the ore at Selby. The mill is Karl Kosack, Aged 64, About now producing about 30 sacks a Whom Little Is Known, day, and it is expected that ship-Passed Away This Morning

The death occurred this morning at 1 o'clock in the Prince Rupert General Hospital of Karl Kosack, who had been in the hostions throughout the winter and pital off and on for some time, 13. Deceased was 64 years of age and a native of Germany. He gave the Peace River as his place of residence, and, as far as is know, at Spring Camp. Ore for the mill he had no relatives and few friends hereabouts.

Funeral arrangements are 'in the hands of the B. C Undertakers.

Why BOYRIL prevents that Sinking Feeling

Why is it that one has such a fine feeling of buoyancy after drinking a cup of Bovril? Modern research has shown that in addition to proteins of exceptionally high food value, beef has certain unique powers of stimulating cellular activity—that is to say of stimulating vitality.

Boyril is the concentrated essence of this "vitality power" of beef. That is why Bovril is such a powerful stimulant and sustainer, why, in fact, "Boyril prevents that sinking feeling."
