

ALL OVER CANADA

WHERE in all the British Empire—in all the world—is OXO more needed than right here in Canada?

It might have been made for us alone. On the Prairies and in Ontario and Quebec, how unfaithfully welcome is a steaming, nourishing, fragrant cup of OXO! In the Maritimes and on the Pacific Coast, what rare protection OXO gives against chill and damp—how bracing the concentrated goodness of the prime, lean beef which it contains!

Fashion Fancies

The Ever-Popular Rhinestone Comes to the Fore Again

With fashion turning a watchful eye once again on evening modes, rhinestone ornaments claim their share of attention.

On this attractive dress rhinestones form the jewelled band that outlines the V-neck and the rather low waist, at which point the trimming assumes importance.

While this particular model is of a finely ribbed chartreuse green silk of heavy quality, it would be as smart in white with rhinestones. The skirt is long and full, with the greater length in back.
