"HIS is an age of rapid motion," says Mr. Babson. "It will become more and more rapid, not less so."

Our nervous systems have failed to adjust themselves to the marvellous speeding up process of the last decade and the result in many cases is physical bankruptcy and nervous collapse. Sleeplessness, headaches, wearied feelings and digestive troubles are the most frequent warnings of danger.

Experience has proven that there is nothing like Dr. Chase's Nerve Food to rescue you from this helpless

Rest and change are helpful, but in most cases it is absolutely necessary to have some medical assistance such as is found in Dr. Chase's Nerve Food.

The starved, depleted nerve cells must be fed back to health and vigor and in Dr. Chase's Nerve Food are found the very ingredients which nature has intended for this purpose.

A few weeks use of this reconstructive treatment and you will be feeling and looking fine.
