To Guard the Family Health

The man who cares two pins for the health of his family should immediately investigate the home heating question. He will find WARM AIR the HEALTHY WAY of heating the home, and he will be led to the McClary Sunshine Furnace as the most efficient system of sending the fresh, moist warm air circulating through the house.

It costs much less to install this guaranteed McClary Warm Air System than hot water or steam systems. And it saves a great deal of coal, as the "Ventiblast" Ring ensures that ALL the fuel is made to give ALL its heat. Burns any fuel, too! For health's sake see the famous

LIBERALS IN BRITAIN PLANNING MANIFESTO WHICH ATTACKS BOTH BALDWIN GOVERNMENT AND LABOR.

(continued from page 1)

recovery of British trade and credit.

"Rating Reform—It is essential that the burden of rates, which weighs unfairly on industry, working class housing, and distressed areas in which unemployment is severe, should be relieved by a transfer from the rates to the exchequer. The method of transfer proposed by the government is unjust and wasteful.

"Unemployment—A wise policy would systematically use the surplus labor now available for increasing our national resources by a well-planned program of national development. The Liberal party has laid before the nation detailed proposals for carrying on this work.

"Industrial Reform —The machinery for co-operation in industry should be improved by the establishment of a ministry of industry with a representative council; the development in every industry equipped with adequate knowledge and enabled under proper safeguards to obtain legal force for its decisions; the establishment of statutory works councils in every industrial establishment of a defined size.

"Coal—The coal industry stands in urgent need of reorganization. The Liberal proposals for this purpose are the only practical proposals now before the country and ought to be put into effect.

"Agriculture—It is of vital importance that the decay of agriculture should be arrested, and that there should be a revival of rural life. The Liberal party has already adopted a detailed program, including the establishment in every country of a representative agricultural authority with adequate powers.

"Education—A progressive development of education is essential to national efficiency.

"Housing—A new standard of working class housing has been set by the houses built since the war. This standard must be maintained and the housing of the whole population must be gradually brought up to this level. This implies the complete abolition of slums.

"Temperance — The machinery for the reduction of licences should be made more effective, and a central licensing commission, to act with the local licensing authorities, should be set up to co-ordinate and stimulate the work of reduction.

"Electoral Reform — There should be established some form of proportional representation, or, where this is impracticable, the alternative vote."
