In connection with the ordination of women the following resolution was passed: "That it is the opinion of this Presbytery that the time is not opportune for the taking of such a step." No spirit of opposition against the principle was expressed, it being merely the view, particularly since there seeman to be no indication of the in-

hanges its records own 1

Plays twelve records without attention.—Runs itself for a whole hour. No operating effort on your part. -- Just listen.

7 HEN you turn on the current, the Iturntable starts to revolve; a mechanical "hand" takes the first record trom the group of twelve and places it on the turntable; the tone-arm moves into position; the sound-box is lowered and the music begins. At the end of the selection, the mechanical "hand" removes the record from the turntable, slides it gently into a felt-lined concealed drawer, and "picks ofi" the next record from the magazine arm. These operations are repeated until the last record is played, then the mechanism stops automatically.

So magnificent an instrument demands an exterior of exceptional beauty. Victor crastsmen have designed a distinguished cabinet for the Automatic Orthophonic Victrola, in which every luxurious touch that ingenuity can devise has been incorporated. The price of the automatic Orthophonic Victrola is \$775. Other models of the Orthophonic Victrola Instruments are obtainable at prices ranging from \$1400 down to \$115. Obtainable on convenient terms from "His. Master's Voice" Dealers. Demonstrations now going on. If your dealer hasn't one he will order it for you.
