AROUND PRINCE RUPERT

Stewart Field Has Made Tremendous Strides This Summer-Silver Cup Should be Big Payer-Consolidated Active on Legate Creek.

Another Strike of High-grade Ore on Woodbine Reported-New Vein Opened up on Mohawk-Topley Field Looking Better and Better

Another strike of high grade ore is reported from the Woodbine mine at Stewart which has been so much in the limelight of late. Raising in the 209 foot drift at a point 61 feet from the 208 cross-cut where showings of silver were encountered in May, ore was encountered with samples taken from the face assaying 34 ounces gold and 740.8 ounces silver. One picked sample assayed \$5.20 gold and 1140 ounces silver or over .650 per ton. Although the centre face does not show ore at a distance of about thirty feet above the level

The ore is reported to have been New Hazelton an option on which checked over several times. The was recently dropped by the Fedwork is a continuation of that eral Mining & Smelting Co. Redone near the same spot during cent work at the property has the past summer. resulted in the picking up of the

throughout the winter.

It is reported that Eastern in- intending operations at the Moterests may assume control of op- hawk.

Extensive underground order to get ventilation into the tunnel work will be carried on lower workings as well as obtain considerable more shipping ore. Thomas B. Lewis, M.E., is super-

> Mining in the Topley field is looking more favorable than ever. Topley Silver, now fully financed, s putting in the necessary machinery to carry on substantial derelopment. A road is being put into the Jack Rabbit group, a gold property which has been bonded by F. H. Taylor from a group of Indians. On the Sweeney property, which Consolidated has been working all summer, there is a full face of ore and in one place the miners drifted two feet to get the hanging wall, the vein running from two to eight feet in width. Operations on this property have now been closed down for the winter.

H. L. Batten, M.E. of Vancouver and a geologist recently made examination of the Aurimont property on Rocher de Boule Mountain. On their report will depend future steps to be taken by the company. A lot of money has! been spent on the Aurimont, under the direction of W. S. Harris, and the vein is true and ore good but not as consistent as was ex-
