

Make sure the things you eat are fresh, clean, pure

AND it is so easy. Just press the plunger in the sprayer. Out comes a cloud of cleanly fragrant mist. Touch a fly or mosquito with the spray. It cannot breathe. And soon that peril is ended. Kill the flies. Use Fly-Tox. Then you are sure the food is clean. Health is certain. And you enjoy that wonderful summer comfort—a house without flies, mosquitoes.

Fly-Tox does not cost much—half-pints fifty cents.

FLY-TOX is the scientific insecticid that was developed at Mellon Institute of Industrial Research by Rex Research Fellowship
