It seems a pity that even one such reservation should have been made. Surely women are, speaking generally, as good as men. Their lives compare favorably with those of the so-called sterner sex. They are usually more pious and more inclined to religion. Surely they have a right to officiate at the ceremony in which man and God are supposed to be more closely associated than at any IN one British Columbia city they other time.

TENNIS IN JANUARY

Some of the boys were out playing tennis on the Acropolis Hill courts Sunday afternoon and ladies yesterday and they say they had a very enjoyable game. The weather conditions were pleasant and the courts dry.

Seldom anywhere in Canada do people play tennis outdoors in The traffic had an awful time to pass January. Yet Prince Rupert has not always been noted for its wonderful climate.

It may also be mentioned that the willow buds are beginning to burst and are becoming very picturesque.

ANOTHER FOUL PLOT

(Vancouver Sun)

"Big Bill" Thompson of Chicago, America's premier clown, sees in the Cotsworth 13-month calendar another foul plot on the part of King George to inflict his royal will upon the people of United States and the honest gunmen of Chicago.

That staid and steady Moses Cotsworth of Vancouver should with tennis for men on Sunday, tenhave concerned himself in any such Machiavellian intrigue will sur- nis for ladies Monday. But then, all these flights of higher his work more than half done. thought are difficult to follow. One must accept the dicta of the masters in utter faith.

If Mayor Thompson were merely a fool, as the average witness of his clowning would immediately suspect, all this nonsense of his could be passed off with a laugh. But he is not a fool. He is a political opportunist who is pretending to be a fool for the sake MRS. AIVAZOFF TO of organizing real fools into a vast voting machine.

Port Commissioners of Seattle Sees Rival for Trade in This Place — Advantage De-

In the January issue of the Railway and Marine News, a Seattle trade publication, will be found an article from the pen of George B. Lamping, commissioner for the port of Seattle. It is an excellent summary giving a clear and impartial view with reference to Pacific ports and their immediate posibilities. The following are excerpts:

"The percentage of Pacific trade to the total trade is yearly increasing and it is said and not at all in a spirit of bravado, for it is prophesied by the foreigner as well as by the resident, that in a few years to come the greater percentage of trade will lie with the Pacific and not with the Atlantic. * * * Consider briefly what are the claims of the various ports: Prince Rupert to begin with.
