Goitre

Goitre is an enlargement of the thyroid gland. It is usually accompanied by constitutional weakness and other nervous disorders.

In the three types of simple goitre, the trouble is easily removed in a few months, while in the exopthalmic type (Graves' Disease) it is necessary to receive treatment over an extended period.

Chiropractic

accompanied by other natural methods, will speedily remove the cause of this distressing inco-ordination and the sufferer speedily restored to normal health.

ST. LAWRENCE WATERWAY TO BE DISCUSSED

Proposed Big Scheme Likely to Cause Lively Debate in Parliament

OTTAWA, Jan. 31. — (By Canadian Press)—One outstanding question which will doubtless come before parliament will be that of the development of the St. Lawrence River navigation and power proposals. That it will bring on a big debate is assured. The divergent views as to the advisability of going ahead with the scheme at the present time, the large amount of money involved, the disposal of the power such a development would provide, the partnership arrangement with the United States to carry through the undertaking — all these points will be fruitful in argument.

Following the reports of the international committee of engineers on the plans to build a deep waterway from the Great Lakes to the sea which differed in that the United States experts favored one dam in the St. Lawrence River and the Canadian engineers two the United States intimated it was favorably disposed to going ahead with the project. The Canadian government referred the reports to an advisory board which met here last week and presented its report to the government. This report will be brought before parliament and although no details have been made public as to its contents it is understood to advise the going ahead with the construction of a deep-water canal and the consequent power development along the rapids between Prescott and Montreal.

ANOTHER GRAIN SHIP IN PORT

Swedish Freighter Sageland is to be Lined Before Loading—Sister Ship of Sydland

The Swedish freighter Sagoland, Prince Rupert's fourteenth grain ship of the season, arrived in the harbor at 9 o'clock this morning and soon moved into the ocean dock where she is to be lined before starting loading at the elevator of a full cargo of grain for the United Kingdom or Continent.

The Sagoland, whose master is Capt. Capt. C. N. Graaf, is somewhat like the steamer Sydland, her sister ship, which was here earlier in the season for grain cargo. She carries a crew of thirty-five men and came here in ballast from Gothenberg, Sweden, touching en route at Gibraltar, Norfolk, Va., Panama and San Diego. She was met off Cape Flattery by Capt. Gus Follmer who piloted her to Prince Rupert.

The Sagoland left Gibraltar on Dec. 19 and had an uneventful voyage which was featured by a lot of rain. She ccaled at Norfolk and Panama and made the call at San Diego to put into hospital a member of the crew who had fallen sick.

Capt. Graaf reports having met the steamer Sydland at Panama. The Sydland left here at the first of January after having loaded full at Prince Rupert for the United Kingdom or Continent. Capt. Larsen of the Sydland told Capt. Graaf of the reception that had been given his ship here and of the pleasant way in which the Christmas and New Year holidays had been spent at this port. Judging from Capt. Graaf, Capt. Larsen must be an enthusiastic booster for Prince Rupert.

The Sagoland is 450 feet long and was built in 1914 at Hull, England.

Good progress is being made at the elevator in the loading of the British steamer Swainby, thirteenth vessel of the season here, which it is expected to get away today.

U.S. CAPITAL IN CANADA

No Cause for Alarm as Only 16½ Per Cent Owned by That Country

VICTORIA, Jan. 31.—Some blue-ruin mongers in this country find most of their material for speeches in what they believe is the gradual economic absorption of Canada by the United States. They use this melancholy stuff in conjunction with the cry that Canadian industry never will thrive unless the taxpayers are saddled with higher import duties. They do not put it as baldly as this; but that is just what protection means. The facts about the amount of foreign money in Canada, however, dispose of all alarm in the most effective manner.

In 1920 the grand total of Canadian securities, which includes government and municipal securities, railways, industries and trade, and finance and insurance, stood at $12,403,000,000. Of this amount Canadians held 66.3 per cent. Of the balance United Kingdom investments represented 15.5 per cent. and United States 16.6 per cent. The remaining 1.6 per cent. was held by other countries. In 1927, however, out of a total of $15,793,000,000, Canadians had increased their holding from 66.3 per cent. to 68.9 per cent., or from $8,225,000,000 to $10,885,000,000. The total foreign holdings, moreover, dropped from 33.7 per cent. to 31.1 per cent. This is made up as follows: United Kingdom, 12.2 per cent., a drop of 3.3 per cent.; United States, 17.7 per cent., an increase of 1.1 per cent.; and other countries 1.2 per cent., or a drop of .4 per cent.

It will thus been seen from the above comparisons that although the total amount of foreign capital in Canada has increased slightly since the war, the investments of the Canadian people have increased. It may thus be assumed from this record that Canadians will continue to dominate the field of Canadian investment.

This Watch Good Value $18.00

We offer this week a very reliable Man's Watch at a moderate price. The regular price is $20.00.

Plain gold filled case 16 size. Screw back and front, 17 jewels, white dial with black hands and figures.

LADIES PLAYING TENNIS YESTERDAY

Following the example of the men on Sunday the ladies turned out for a game of tennis yesterday at the Acropolis Hill courts and a very enjoyable hour was spent. The weather was not too cold and the courts were dry.

SPORT CHAT

Some important alterations have already been resolved upon in the program of the National Rifle Association meeting at Bisley this summer. For all contests on the "short" ranges, 200 to 600 yards, the dimensions of the bulls-eye are to be reduced, to obviate the great number of "highest possibles" and ties resulting from the splendid ammunition and the wonderfully accurate rifles now in use.

This year, for the first time in the history of the King's Prize competition, marksmen who fire in the first stage, which is the eliminating stage, will start their shooting at 600 yards, will proceed to 500 yards and will finish at 200 yards. This will prevent men placed in the late squads having to shoot at the longer ranges in a fading light.

The following is the lineup for the billiard match between the Gyros and the Maple Leafs tonight:

Charles Balagno vs. Col. McMordie.
W. J. Nelson vs. J. Hamilton.
Marcus Andrews vs. G. P. Tinker.
McLachlan vs. Geo. Woodland.
G. Howe vs. A. Donald.

Union steamer Camosun, Capt. James Findlay, is expected back about 6.45 o'clock tonight from Anyox, Stewart and other northern ports of call.

The Mineral Province of Western Canada

To the end of December, 1926.

Has produced Minerals as follows: Placer Gold, $78,018,548; Lode Gold, $126,972,318; Silver, $80,787,003; Lead, $106,976,442; Copper, $209,967,068; Zinc, $50,512,5577; Coal and Coke, $284,599,133; Structural Materials and Miscellaneous Minerals, $50,175,407; making its mineral production to the end of 1926 show an

AGGREGATE VALUE OF $988,108,470.

PRODUCTION FOR YEAR ENDING DECEMBER, 1926, $67,188,842

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any co ony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown grants.

Full information, together with Mining Reports and Maps, may be obtained, gratis by addressing—

THE HONORABLE THE MINISTER OF MINES.
VICTORIA, BRITISH COLUMBIA.

N.B.—Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B.C. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information.

Reports covering of the Six Mineral Survey Districts are puolished separately, and are available on application.
