

From Jamaica to the tables of the World

CENTURY-OLD methods produced a certain grade of ginger in Jamaica. But this grade wasn't good enough for "Canada Dry." And so, J. J. McLaughlin Limited went to Jamaica and offered prizes for ginger grown under modern methods of cultivation. The result was a new ginger—of a higher, finer quality.

That is the grade of ginger used in this fine old ginger ale. The other ingredients are of equal purity and high quality. They are blended and balanced in an exact proportion. Great care is taken to be sure that these proportions never vary. The uniform carbonation of "Canada Dry"-an important matter affecting flavoris assured by a secret method.

The result is a ginger ale with a marvelous flavor . . . mellow . . . "dry" . . . thirstquenching. A ginger ale, good by itself or to mix with other beverages. So distinctive is its flavor that you can tell it from all others, anywhere.

TERRACE WOMEN PLAN TAKING UP HANDICRAFT WORK

Meeting of Women's Institute Decides to Secure Information Regarding It.

TERRACE, Aug. 16.—The monthly meeting of the Terrace Women's Institute was held in Terrace Theatre on Tuesday afternoon with Mrs. F. Ha newly appointed president in the chair. Following routine business it was agreed to pay the secretary a salary of \$25 for the present year

Arrangements were made to assist the Terrace Falll Fair Association by serving afternoon tea the day of the fair and undertaking catering for the dance. A committee composed of Mesdames Attree, T. E. Brooks and C. R. Gilbert was appointed to have charge of arrange.

Following a discussion on the advisability of taking up some special work at the meetings the secretary was asked to write for instructions and information on glove making, rug making and any other handicrafts.

The annual report of public health nursing department was read together with an urgent appeal for co-operation in prevention of disease and of its

Refreshments were served after the meeting by Mrs Hall and Mrs C. R. Gilbert, the hostesses for the month.

MY KITCHEN NOTEBOOK by mary Blake Domestic Science Counselor

How Much We've Learned About the Feeding of Babies

When I hear the young mothers of seriously upset a baby. today discussing carrots and spinach and orange juice and cereal, I wonder

starting out in life, Nature has provided the perfect food in mother's milk. The breast-fed baby has a better chance from the start than the evaporation and you have pure milk. artificially-fed baby, and avoids the experiments that are necessary and the set-backs that so often occur in finding the best substitute for mother's milk.

Take Your Doctor's Advice

To find the right milk for your baby, let your doctor advise you. What may have worked for some other baby won't necessarily work for yours, and it takes a doctor's knowledge of many babies and their idiosyncrasies to guide you

To make a milk safe for a baby the ceptionally high quality-and produced under the most sanitary condi-

tions—but the quality must be of con-trolled uniformity. Wide variations from day to day in ordinary milk may

All of these qualities you will find in how any of us of an older generation | thousands of mothers in the feeding of ever managed to live through our first | tiny infants. Carnation Milk has two or three years, without the elab- proved marvelously successful in so orate feeding programs which exist | many instances that it may be just the thing your baby should have.

But much as these wise young moth- Not only is it the purest of whole ers know that is new in the feeding of milk, from selected herds, but it is so babies, there is one basic fact that | carefully sterilized, so free from germs doesn't change. For the baby just and bacteria, and sealed so perfectly against contamination that no further pasteurization is necessary. You add pure water to restore that removed by

A very important quality of Carnation Milk is its easy digestibility, due to the "homogenization" which breaks up the fat globules into extremely minute particles, very readily assim-

Baby feeding is but one of the many important uses of Carnation Milk. In cooking it gives a smooth creaminess, to soups and sauces, a fragile delicacy and exceptional keeping qualities to cake, a wonderful texture to candies and a rich velvety smoothness to ice cream that even the best of bottled requirements are, naturally, stricter | milk cannot equal. Write for the free than for any other use.
