DAILY EDITION

FINISHED WITH POLITICS

The election will be pretty well over by the time this is read and as a newspaper we shall be back to our regular routine. We have protest when R. H. Pooley, leader of supported the cause that we believe would be best for Prince Ru- higher royalty on northern timber. Mr. pert and district and no matter what the outcome, have no regrets. Thompson had supported the Tories However, we shall from this day forget politics and turn our atten- when they had given away Prince Rution to the development of Prince Rupert and the encouragement of pert's water supply. The only thing everything which is for the good of the north country.

The contest has been a most reasonable one and both parties ment of hydro-electric in Prince Rulocally are to be congratulated on their moderation and the pleasant manner in which they have carried on the contest.

HEAT OF CAMPAIGN

In the heat of a campaign there is a tendency for members of a party to say or do things that they might otherwise leave undone. Their judgment becomes to some extent distorted. Now the campaign is over we can again view things reasonably and give them their proper need of praise.

Just as the campaign is closed there comes to our desk for the delayed until the city was paving some first time the much discussed provincial government booklet "British Columbia's Progress. Those who see this booklet will, we think, done at the one time. agree with us that it is a splendid advertisement of Canada's western province and does not contain a word or hint that could reasonably be construed as political. Anyone wishing to induce friends to come to this province could not do better than mail them a copy of the booklet.

NAVY HAS GONE

The two naval vessels, the larger representing the British navy and the smaller the Canadian naval forces, have gone. While here the officers and men made many friends and they were able to teach local people many lessons in courtesy. They were a splendid lot of men and the periodic visits of the ships are looked forward to by a great many as bright spots in the local life.

A number of local boys go on these vessels and get training in seamanship and learn the life aboard a war vessel. It is a good experience for any of them and one that others might take with profit.

THOSE NEW STEAMERS

An announcement is made by Sir Henry Thornton that new steamers are to be constructed for the Pacific coast service of his company. This is good news and it is hoped that this time the government will back up the railway department in providing the funds and seeing that the work of building the vessels is pushed been put up to public tender. Mr. through to completion. The ships are badly needed and if they are Pattullo said he believed in encouragready for service in 1930 it will mean a great impetus to the busi- ing capital to come in and also of ness of the railway and the bringing of a great many more tourists seeing that the people already here to Prince Rupert.

MINISTER OF LAXDS GIVES ELO-QUENT ADDRESS ON ISSUES OF THE DAY TESTHOLME

very much larger than that held in the one speaker, Hon. T. D. Pattullo,

Mr. Partullo spoke of the various things done by the Government for Prince Rupert on his recommendation .2 people. He warned them that if they a lot of that kin dof bribary in the luture (Applause).

The minister stressed the fact that every Conservative in the Legislature with the exception of Bill McKenzie Wednesday, July 18, 1928 had voted against the Prince Rupert Court House, yet Mr. Thompson had never raised a protest and had stuck by his party silently accepting this as his policy. He also had made no he had been against was the developpert. Mr. Pattullo suggested that Mr Thompson must be judged by his record and what he had done in the past he was likely to repeat in the

In mentioning the incidental matters that had been done for Prince Rupert Mr. Pattullo said another thousand dollars had been granted for the development of the Salt Lake park. The roads at the court house had been of its roads and then all would be

Mr. Pattullo defended his attitude oward the veteran of the war and said that the forestry service was 100 per cent veterans.

Stressing the fishery matters Mr Pattullo said he did not think if Mr. Thompson were returned he would be made commissioner of fisheries. He doubted if under a Conservative administration there would be even one more the cabinet. He mentioned that the only thing done for the fishermen here so far had been done by his Government.

Dealing with the timber deal with he Powell River Company, Mr. Pattullo mentioned that with the increased capacity of the mill at Powell River they had required more timber. They had been refused the small coast stands which were needed for other purposes but had been granted the tract at Skidegate Inlet which was a large opration requiring a railway and could not be handled by a good many of were treated properly.

The minister mentioned the sinister propaganda which was carried on by the opposition forces such as the and articles in the opposition newsservative organization that they had but why on the same day come ou! with an article in their organ which hinted at such things.

In concluding the minister spoke of the local attitude to the foreign born and promised that if he were C. Products Week elected he would continue to fight

KODAK SUPPLIES

A FTER all, there's no place like British Columbia in which to work and live and play! Here, there are no long "off seasons" to cut down a man's working time. Our temperate climate keeps a man fit ... enables him to produce more...earn more.

The producers' average weekly wage in British Columbia is \$28.39 . . . 49% higher than the rest of Canada. In 1926 seventeen industries increased weekly wages by \$12.95! Actually in ten years our annual payroll has grown from 78 million dollars to 175 million dollars . . . the greatest advance by far of any Province during that period. This, of course, does not include agricultural workers, professionals, clerks and others. British Columbia's gross payroll is estimated at 210 million dollars!

Life is more enjoyable . . . we have more time to enjoy the year-round pleasures and recreations at our doors, while our general standard of living is very much higher.

Taxation during the last four years has been reduced by two and a half million dollars . . . concrete proof of our province's sound financial condition.

Construction, that outward evidence of the faith we have in our province, has played a large part in the wage situation. In ten years British Columbia's construction activity has gone up ten times. In 1916 it involved only \$2,800,000 . . . for 10 months in 1927 it amounted to \$27,277,000!

This activity has an immediate effect on current conditions. Cash funds are disbursed for materials, employment is good . . . wages fairly steady . . . money in circulation.

It increases the capital investment in our Province. And there can be no surer indication of future progress than when producing machinery increases . . . a sign of growing markets . . . a sign that British Columbia products are winning a place in the markets of the world.

Read these announcements and understand your province's ? progress . . . clip them out and send them to friends. If you desire extra copies of these announcements a note to this newspaper will bring them. Advertise your Province!
