-no bligation -

You need not buy a new Orthophonic Victrola) in order to hear it at home. Try it first then purchase if you like it.

After all—the purchase of a new Orthophonic Victrola is a step requiring a little serious thought in various ways. You want to know (not to imagine), how it will appear in your home. You want to hear it in its permanent location. You will probably wish to try it in various locations in your home. Why not? It costs you nothing to do all this,-to have a wonderful evening of your favorite music.

Home demonstration is part of the service rendered by His Master's Voice dealers. Any responsible person in the community may arrange for such a demonstration.

There is no music so beautifully identical with the original performance as Orthophonic Victrola music. This is possible only through the recently developed, Victor controlled, principle of "Matched Impedance" or "Smooth Flow of Sound". Also,-there is no group of artists so varied or so famous as the group that sings for Victor V. E. Orthophonic records.

Models of the New Orthophonic Victrola are beautifully executed in fine woods, smartly designed, from \$1400 to as low as \$115. Obtainable at all His Master's Voice dealers on convenient payments.

Remember, a home demonstration with no obligation, is yours for the asking.
