The color and shape of the eyes reveal character and disposition. They indicate types and racial origin. They form an interesting psychological study.

What are Your eyes saying today?

Your eyes have no voice, but they speak - they show moods and temper. They do more, they show your physical condition. Are they clear, bright, sparkling with health-or dull, with a yellowish tinge to the whites? This xellowish tinge is the signal of intestinal sluggishness-autointoxication and liver trouble. Don't neglect this warning of poor health to follow.
