**SIR DONALD IS GONE TO SEE BIG MISSOURI**

If It Looks All Right He Will Send New York Expert To Stewart.

"I should not be going to Stewart unless I expected that there would be something there for me to see," remarked Sir Donald Mann last evening soon after his arrival from the east on his first trip over the G. T. P., although not his first visit to Prince Rupert.

"I am going up to look at the Big Missouri. No, it is not a mine but a very good prospect," he continued. "I am not in a position to say anything about it yet, but if it looks good enough I shall send an expert all the way from New York to examine it and report."

Sir Donald went on to say that he did not contemplate developing any of his other properties at Stewart or of operating the railway which was built some years ago, and in regard to the Big Missouri he could not be sure what he would do until it was proved that the ore was there in sufficient quantity and of high enough value to make its working worth while.

Sir Donald was very pleased with his trip along the G. T. P., not because of the fine scenery which so many people admire, but because of the good land en route which will be cultivated in the near future. He said he expected ten years would make an immense difference in that country.

Asked if he was through with his railway building Sir Donald said emphatically that he was. He had become stale at the work, which required men of energy and perseverance with all the resiliency of youth to aid them.

"It is forty years ago this month since I first started work on the C. P. R.," he remarked reminiscently. Yes, I did a little before that on the Grand Trunk. Forty years of railway building is a long time. I never thought I should tire of it, though, I thought that at sixty-five I should be just as keen as ever, but I am not. The keenness has worn off and I do not care about it any more."

Sir Donald left for Stewart this morning on the Grier Starrett and proposes to return at the end of next week and go south on the G. T. P. steamer.

**BUILDING PERMITS FOR MONTH OF JUNE**

Houses to value of \$22,000 commenced and Many More Will Be Erected

There has not been so great activity in building this past month as there was in May. This is due in great part to the unsettled state of labor owing to strike conditions which have existed throughout the whole country. However many of the buildings which were begun in April and May are rapidly nearing completion. The stores for R. L. McIntosh have been plastered and shelving has been put in one and it is practically ready for occupation except that there is no plate glass here yet. The large stores of Geo. J. Frizzell have been finished on the exterior and the tin-smiths are now at work putting on the cornice. The work of insulating the cold storage at the back of the store which will be occupied by Frizzell's Meat Market is proceeding apace now that shavings have arrived from Edmonton. The addition to the Government building has been plastered and the forestry department will soon be moved.

During the month of June building permits to the extent of \$12,000 were issued from the office of the city engineer. The following is the list: Harry Atkins \$5,000; H. R. Love, \$1,000; D. Zarelli, \$500; G. H. Munro, \$1,600; J. W. Chadwick Dunes, \$200; Akerberg Thomson, \$2,500; Miss Tillet, \$500; F. W. Hart, \$1,000; H. Leaper, \$800; A. T. Bailey, \$1,000, and Cheng Yeng, \$600.

Already there are indications that there will be some further construction of residences, especially under the Returned Soldiers' Housing Scheme.

If you have something to sell and want more than it is worth, advertise in some other paper, The News cannot sell it.

**WATER NOTICE DIVERSION AND USE.**

TAKE NOTICE that M. R. Lillico, of Ottawa, Ont., whose address is care Wm. B. Hood, Atlin, B. C., will apply for a licence to take and use four cubic feet per second of water out of Spruce Creek, which flows east to west and drains into Pine Creek, about two and one half miles from Lake Atlin.

The water will be diverted from the stream at a point about 150 ft. below Cassidy on the west bank of the stream, and will be used for placer mining purposes upon the Calder Bench Lease described as Hydraulic Placer Mining Lease No. 387.

This notice was posted on the ground on the 27th day of May, 1919. A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Atlin, B. C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a newspaper.

M. R. LILLICO, Applicant, Ottawa, Ont.

By Wm. B. Hood, Atlin, B. C., Agent. The date of the first publication of this notice is June 23, 1919.

**FARM LOANS for SOLDIERS**

**How Everyone Can Help**

THE Government has developed a liberal and broad plan to help soldiers settle on farms. It is securing land. It is granting substantial loans. It is obtaining advantageous prices on equipment, implements, building materials and live stock. It is providing agricultural training and farming supervision.

That is as much as the Government itself can do. But the plan needs more. It needs a community spirit of co-operation.

Already Provincial Governments, Universities, Farmers' Associations, and Veterans' Associations are giving valuable assistance. Many manufacturers and sellers of farm supplies have agreed to allow the soldier settlers special prices. Many successful farmers have willingly worked on Qualification Committees which have to pass on the applicants. Men who have had experience in lending money on farm property are serving on Advisory Loan Committees, judging land values.

But even such practical assistance is not enough. In each community farmers can be of real service to the soldier settler. They can give him advice about local conditions. They can lend him an extra horse or plough, give him a day's help at seeding or harvest time, and extend to him that friendly, neighborly, respectful spirit which he deserves.

In this way Canada is performing a double duty. It is discharging, as far as possible, the debt we owe to our soldiers; and it is adding to the country's chief industry a body of competent, willing producers.

Full information about lands and loans for soldiers will be sent on request to the Provincial Superintendent, Soldier Settlement Board, Rogers Building, Vancouver, B. C.
