Silver Dollar Group Discovery Believed Important - Outland Silver Bar Developing on Large Scale-Silver Tip Looks Encouraging

Samples from a new discovery on the Silver Dollar group on the upper Bear River were brought into Stewart recently and indicate that the new find is apt to prove one of considerable importence. No work has yet been attempted but some open cutting will only thing we have in this town. executive committee. The ob- George Osborne May Not Recover be done this fall as well as prospecting with a view to ascertaining the extent of the mineralization. The find was made in an almost inaccessible place but the vein appears to be thirty feet wide with bunches of galena and grey copper occurring throughout this width. The property consists of eight claims and lies east of the Will you bet your money on the Red Top and north of the George Enterprise, both of which are being developed. The Silver Dollar*

group is owned by William Fors-man, William Dann, Thomas has made a thorough examination Powers and J. H. Wilson.

tions at our doors, while our general standard

escumated at 210 million dollars!

of living is very much higher.

financial condition.

From Accident at Peterboro Today

PETERBORO, Ont., Sept. 29 .ant part in the manufacture of George Osborne, aged 23, Prince munitions in the Old Country. Rupert electrical engineering student at the Canadian General Electric Co.'s plant here, was severely shocked while working in the plant today. Men are still working on the young man but little hope is held out as methods of rescusitation have so far produced not a spark of life.

> Earl's daughters take menial positions in the factories while kitchen maids become skilled artizans. Other women run cranes and big machinery.

INDUSTRIAL PAYROLL CONSTRUCTION A FTER all, there's no place like British Columbia in which to work and live and play! Here, there are no long "off seasons" to cut down a man's working time. Our temperate climate keeps a man fit ... enables him to produce more...earn more. Construction, that outward evidence of the faith we have in our province, has played a large part in the wage situation. In ten years

British Columbia's construction activity has gone up ten times. In 1910 it involved on \$2,800,000 ... for 10 months in 1927 it amounted 10 \$27,277,000! This activity has an immediate effect on

current conditions. Cash funds are disbursed for materials, employment is good . . . wages fairly steady . . . money in circulation.

It increases the capital investment in our Province. And there can be no surer-indication, of future progress than when producing machinery increases . . . a sign of growing markets . . . a sign that British Columbia products are winning a place in the markets of the world.

Read these announcements and understand your province's " progress . . . clip them out and send them to friends. If you desire extra copies of these announcements a note to this newspaper will bring them. Advertise your Provincel
