Two hundred years ago a tea like "SALADA" would have cost \$50.00 a pound but such tea was then unknown today millions enjoy the fragrance and satisfaction of "SALADA" for a small fraction of that cost.

THE PORK BARREL

The Tolmie faction of the Conservative party in British Collanguage. umbia expresses itself as very much concerned over what it calls "the pork barrel policy" of the Liberal party.

Premier MacLean says he thinks he is better able to do business with the friendly Dominion government than the man who for years had organized the Conservative forces against them. fifty years standing, Rev. J. S. Hen-come about—in building highways. Mr. Manson referred to the fact that Then, from purely selfish interests, the people should return Mac- derson, and a leading Vancouver Con- liquidation of old debt, the University the government had not to resort to Lean in order to have the railway deal completed. That is the pork barrel policy.

And, after all, throughout life we adopt the pork barrel policy. All business is selfish, most religions are selfish and mostly politics is a selfish business. We elect a man because we think he will help window on the street here a cartoon of British Columbia was less than that these messages of gloom and criticism to make conditions better than if we elect the other man. So today of the same old insinuation—a fair of some cities of the Dominion. it is suggested to electors of British Columbia that they would be wise to elect a supporter of the present government rather than an opponent because the country is likely to benefit from such action. That is the pork barrel policy.

We have two good men offering themselves for election. Un- to his (Mr. Manson's) department and son asserted that it had been not only doubtedly Mr. Pattullo is the more able of the two but Mr. Thomp- described him as " amost inhuman the duty but the privilege of the provson is also an able man and will do his duty as he sees it. We wretch of most despicable type." Why ince to give some service to these think all will agree about that. The Conservatives could not have if it is true, I should be behind the men in return for the great service made a better choice. But Mr. Pattullo is a member of the governmen that is able to help us. He can help dispose of the P.G.E. to advantage and he can help us in our fight for recognition here. He has represented us well and there is no good reason why he should not continue to do so. Prince Rupert needs to consider the pork barrel a little just now.

SUCCESSION DUTIES

KERGIN FOR MINISTER

The despatch we publish today suggesting that H. F. Kergin may quite possibly get the portfolio of mines in the cabinet of the MacLean government is interesting in that it indicates the value of the Dominion. The production of placed on the Atlin member in the capital.

So far as this paper is concerned we shall be glad to lend our 75 percent and the average increase support in helping Mr. Kergin get the portfolio. WONDERFUL ADDRESS

The address by Hon. A. M. Manson at the big meeting last and provincially.
