DAILY EDITION Saturday, March 17, 1928

COURT HOUSE GROUNDS

It is satisfactory to know that steps are being taken by the provincial government to make the Court House grounds in keeping with the rest of the city in the matter of beautification. The building of bitulithic roads and walks is the first step in the right direction. Evidently the beautification virus is spreading to the government and with their co-operation with the city council, the other public bodies and the citizens generally we shall have a city that will be a credit to the commercial centre of the north coast.

The hospital board is to be congratulated on contributing its bit to the general movement. Given a fairly good summer, the results all round should be excellent.

IN THE PUBLIC EYE

With the growing responsibility of the local member, Hon. T. D. Pattullo, it is noticed that he oftener comes in for attacks from the opposition. That is a pretty sure sign that he is making good. If a person is so inactive that nobody notices him, he is not much good to the country. The moment he becomes open to public attack it may be taken for granted that he is a live person and that he is feared by those who oppose him.

Mr. Pattullo has taken a very important part in the work of the past session and in doing so has had a number of tilts with the members who sit across the floor from him. That he has come out unscathed is matter for congratulation to the people here who elected him and who wish to see their member make good.

PEACE OR WAR?

Ours is a democracy and we talk glibly of the commonwealth, the good of the nation and the liberty of the subject and yet we know well that politically each side is out to murder the other politically. Kill the enemy. Give no mercy. Make it so that they can never come back. Then some day when an individual politician leaves this world all gather round and praise the work he has done.

It's a wonderful system, this democracy of ours. When we talk of civilization we have to admit that we have not reached a very high state so far. We have a long way to go before we get to a condition where he can be said to be much higher than the savages.

Take the legislature at Victoria. Without mentioning either party as being better than the other, we must be convinced that the opposition has no conscience. Anything will go if it will only embarrass the government. The question of disgracing a member, of discrediting any good work that is done, of killing a member politically, ruthlessly and without mercy. Any of these things are done if the opportunity occurs. The only reason it is not done oftener is the lack of brains and ability in those who oppose.

Democracy is a state of war. There is no such thing as peace for those who have to do with governmental affairs.

U.S. PEACE POLICY

As it is at home so it is abroad. People are everywhere talking peace but they are not acting as if peace were likely. However, it is a good thing to talk peace. Possibly it is the first step toward universal international peace.

Yesterday the New York despatch giving the address of Secretary Kellogg before the council of foreign relations was an extremely interesting one. The policy of that country is, he says, that they will not bind themselves to armed intervention in the cause of peace, but they will enter into peace treaties and do everything except that.

The constitution of the United States will not allow of binding agreements. Peace and war arbitrament lies with the President and Senate and the right to decide is left with them, no matter what else may be said or done. The hope of the future, the secretary said, was the arousing of a public conscience in the nations of the world against war. However, this can be done only in an educated world and today much more than half the world is illiterate, so there is a lot to be done.

ROD AND GUN CLUB REPORT

ORGANIZATION ENROLLED 67 MEMBERS DURING 1927 AND TOOK UP MATTERS OF IMPORTANCE TO SPORTSMEN

During the year 1927, there were 67 members enrolled in the Prince Rupert Rod & Gun Club according to the annual report of the secretary-treasurer, F. W. Grimble, which was presented at the annual meeting of the club this week. A number of matters of importance to the interest of both rod and gun sportsmen were taken up during the year by the club.

The Dominion Fisheries was requested to place a stock of trout eggs in Shawatians and Cloyah Lakes, the department agreeing to distribute fifty thousand Kamloops eggs in Cloyah Lake.

Owing to numbers of female fish laden with spawn being found to have been taken in lakes and streams before the end of May, the club suggested to the government that fishing be closed in such lakes, and streams in this district until May 24, it being felt that such a regulation would work hardship on no one. No reply had been received from the department.

Owing to the large increase of wolves in the district, it being held that these wolves killed more deer annually than the hunters as well as being a menace to camp life, the Game Conservation Board of the province was asked to increase the wolf bounty to \$25. It was also suggested by the club that a depletion of bucks being feared, hunters be allowed to take three deer during the season of any sex, does with fawn, of course, being protected.

The secretary-treasurer made a recommendation that the club put in good condition for the coming year—a canoe on Woodworth Lake which had been presented to the organization by the Prince Rupert Yacht & Rowing Club through Alex McRae and R. E. Benson, and a flat-bottomed dinghy on Khatada Lake which was purchased and delivered under the management of George Bryant.

Last year's officers of the Rod & Gun Club were: President, D. C. Stuart; vice-president, J. W. Durran; secretary-treasurer, F. W. Grimble; executive members, J. E. Boddie and Dr. J. P. Cade.

This year's new officers are: President, Alex McRae; vice-president, Robert Blance; secretary-treasurer, F. W. Grimble; executive members, J. W. Durran and R. E. Benson.

"FIVE THOUSAND FACTS ABOUT CANADA" IS OUT

The 1928 Edition Shows Progress of Country and Deals with Practically Every Subject

Frank Yeigh's popular compilation, "5,000 Facts About Canada," for 1928, is out, having reached its twenty-fifth year. The edition is marked by many improvements, including an illustrated section and tables showing the marked progress of the Dominion in a quarter of a century, while the stirring story of our natural development in a single year is strikingly shown in a series of crisp paragraphs in 50 chapters, ranging alphabetically from "Agriculture" to "Western Canada." No publication sells Canada—not only to Canadians but to the world—more effectively than this tabloid encyclopedia, and one can well understand that it has a large circulation. It may be had from the leading newsdealers or by sending 35c for a copy of the Canadian Facts Pub. Co., 588 Huron Street, Toronto.

Ten Years Ago in Prince Rupert

MARCH 17, 1918.

The death occurred early this morning, following a long illness, of Mrs. W. V. Tattersall at her home on Ambrose Avenue. She was a native of England and had been in Prince Rupert six years. A widower and three sons survive.

The new Unionist federal government will open its first session at Ottawa tomorrow.

John Conway, coroner, will leave tomorrow for the Princess Mary to investigate the death of a Japanese named Kawamura who is believed to have lost his life when he fell into a vat of boiling acid.

ST. PATRICK'S DAY IS TODAY

ANNIVERSARY OF PATRON SAINT OF IRELAND IS BEING OBSERVED AS USUAL HERE

On account of St. Patrick's Day falling today (Saturday), full observance of the date does not fall on the day proper. While a number of functions are being held today, the annual St. Patrick's concert by the Catholic Church will not be until Monday night.

St. Patrick, patron saint of Ireland, whose anniversary it is, lived, according to history, from the year 373 A.D. to 463 A.D. Concerning him many miraculous stories are related, the best known of these having been his reputed extermination of serpents from the Emerald Isle. He carried out a Christian mission, extending over probably about forty years, among the Irish with great success. In 441 he was consecrated a bishop. The "Confession" and the "Epistle" were his best known literary works. Upon dying at an advanced age, he was buried at Downpatrick.

ST. PATRICK'S TEA AT PRESBYTERIAN CHURCH

Large Number Taking Part in Event With Interesting Musical Program

With decorations appropriate to the occasion, a St. Patrick's tea and sale of home cooking with musical program is being held this afternoon in the church social hall by the Ladies' Aid of First Presbyterian Church.

Receiving the guests are Mrs. T. McClymont, Mrs. T. M. Spencer and Mrs. Joseph Greer, the wife of the pastor, Mrs. J. R. Frizell, being absent through illness.

Pouring tea are Mrs. J. L. Christie and Mrs. William Miller with Mrs. Fred Stork, Mrs. Alex. Finnie, Mrs. James L. Lee, Mrs. W. L. Sandison, Mrs. Charles E. Starr, Mrs. W. J. Nelson, Mrs. D. J. J. McNaughton, Mrs. L. W. Kergin, and Mrs. W. H. Wilson-Murray assisting in serving.

The home cooking table is in charge of Mrs. J. G. Steen and Mrs. D. McD. Hunter and Mrs. Samuel Massey is cashier.

The musical program, under the arrangement of Mrs. H. C. Fraser, who is also acting as cashier, includes vocal solos by Mrs. H. N. Brocklesby, Miss Emily Davies, Mrs. Morris Blott, Mrs. F. W. Allen and Miss Georgina Hunter; vocal duet by Mrs. Blott and Mrs. Allen; violin solo by Miss Marjorie Lancaster, and pianoforte solo by Miss B. A. Leitch. Arrangement of decorations was in the capable hands of Mrs. David Thomson.

Man in the Moon

"MAIZIE" the world's best laying hen, the property of the University of B.C., officially known as Hen Number 6, that laid 351 eggs in a year, brought the university last year much fame and a total revenue of \$2,225. Fertility is evidently esteemed in the poultry world even if it is not in our own.

WE all should be proud of Maizie. For she lays an egg a day. She'll keep the race increasing in the good old fashioned way.

IF the land were full of Maizies. Keeping busy every day. We could cultivate to the polar land. And turn migrants away.

THE cause of most of our discontent is the cars our neighbors are driving or our dealer is showing.

MY neighbor bought a Ford today. He brought it home with pride. And now he daily takes his girl. Out in that car to ride.

Another has a natty Chev. It makes me blue with rage. For I have nothing I can drive. Except an ancient Paige.

I want to buy a modern car. I hate to make them stare. For every neighbor that I meet. Is cutting quite a flare.

IT is suggested that as a means of revenue the city might rent parking space along the wider streets.

THE United States came into being as a result of a revolution and since that she has been trying to prevent a repetition by stopping revolutions in other countries.

WHEN a man tells you what a bad place Vancouver is, you know just about how he spent his time there.

THE difficulty the Republicans are having in the United States today is to decide how to get rid of Hoover as a presidential candidate.

KETCHIKAN MILL IS TO REOPEN MONDAY

KETCHIKAN, March 17.—W. C. Mitchell announces that the Ketchikan Lumber and Shingle Mills company will resume operations again next Monday, March 19, the preliminary work of getting the mill in shape for the summer season has been finished.

The company has a number of orders to fill and there are plenty of logs on hand for the present.

Save the "POKER HANDS" that are packed with
