# News of the Mines

AROUND PRINCE RUPERT

Diamond Drilling in Full Swing at Topley—Duthie Mine Maintains Standing—40-ton Mill for Silver Cup at New Hazelton

Following several delays as a result of slow penetration through glacial drift, diamond drilling operations at the Topley Richfield mine have been successful in breaking through this loose formation and good headway is now being made in solid rock. H. L. Batten of Vancouver, consulting engineer, announced that the drill was down ninety feet on Tuesday. Rapid progress is now expected and the values at depth should be known within a few days. Everything is working smoothly at the mine. Workmen are employed under contract to run a raise to the surface from the long drift at the north contact and at this point the permanent grade of the Silver Cup, has been found and this has caused an acceleration of the plans for development of the property. Mr. Dornberg paid a visit to the property this week and expressed high pleasure at the prospects.

Under Mr. Dornberg, the Silver Cup mine is also being developed with splendid results. It was at first planned to put a twenty-five ton mill on this property but it is now believed that the smallest capacity plant it will be able to use will be forty tons. A sufficient water supply is available and it is possible that the ore may be trammed over the mountain and down to the Bulkley River. Meanwhile, a big force of men is being put to work to get the Nine Mile wagon road in shape for heavy traffic. This will be necessary before the mill plant can be hauled in. Shipments of high grade ore being continued without interruption, ore being mined and handled at a fast rate from a depth of 300 feet. Arrangements are being made for storage tanks for fuel oil at New Hazelton station.

Al Harris of New Hazelton received instructions from his brother, W. S. Harris, this week to start operations at once on the Aurimont property on Robber's Bluff mountain. This is the old Hazelton & Gold Cobalt property which has been reorganized and refinanced. Al Harris has placed Ed. McLaren in charge of operations.

Three tons of high grade ore per day is now being produced at the Mohawk property, reports of the Onineca Herald, of New Hazelton, the ore being shipped to Trail smelter in bulk. Samples recently taken gave values of \$125 per ton under assay. Besides taking out ore, the Etridge shaft vein is also being developed and it is expected to take a lot of mineral from this in the near future.

W. R. Wilson, wealthy mining man of Victoria, plans to make a well organized

## CHILD MASQUE FINE SUCCESS

TWO HUNDRED AND FIFTY CHILDREN AND 2500 ADULTS ATTEND PICTURESQUE EVENT

With some 250 children and about 200 adults in attendance, the children's masque held last night in Moose Hall by the Women of the Moosechar Legion was a highly successful and picturesque affair. Some 150 children in costume, as well as those who were not, danced from 8 to 11 when refreshments were served and from 11 to 2 the adults enjoyed themselves to the full. Splendid music was furnished by Al Small's orchestra. Gillis Royer was master of ceremonies.

The children were led in the Grand March by Mrs. D. Lund and Mrs. H. Skattebol and the judges were Miss S. A. Mills, Miss E. M. Earle and Miss Myfawny Campbell who, on account of the large number and variety of costumes, were hard put to it to make their selections in some cases. The prize winners were adjudged as follows:  
 Best dressed as girls—1. Miss Clara Stegavik; 2. Miss Kathleen Bustin.  
 Best dressed as boys—1. Miss Louise Lindseth; 2. Miss Phyllis Parry.  
 Best fraternal costume—Miss Dolly Derry.  
 Best original costume as girl—1. Miss Salberg Jensen; 2. Miss Lea Basso-Bert.  
 Best original costume as boy—1. Paul Stegavik; 2. Miss Lillian Johnson.  
 Best advertising costume—1. Miss Steina Phillipson; 2. Miss Eleanor Edwards.

Best girl character—1. Miss Vera Parry; 2. Miss Marie Mussallem.  
 Best boy character—1. Edward Lindseth; 2. Eric Christiansen.

Best girl's comic—1. Miss Theima Johnson; 2. Eric Barton.  
 Best boy's comic—1. John Schubert; 2. Peter Petersen.

Specials—1. Miss Jaqueline Ireland; 2. Miss Gloria Sturgeon; 3. Miss Myrna Fuller; 4. Miss Georgina Eckerman.

National characters—Ireland, Miss Maxine Helthroner; gypsy, Miss Minnie Fox; Scotland, Miss Jeanette Thompson; Spain, Miss Phyllis Biale; Norway, Miss Lillian Ytreberg and Miss Tilly Wick.

The committee responsible for the successful arrangement of the event consisted of Mrs. Joseph Saggard, convener; Mrs. A. G. Barlett, Mrs. Charles Edwards, Mrs. D. Lund and Mrs. A. Wick, assisted by Mrs. H. Skattebol, Mrs. P. Wingham, Mrs. O. Stegavik and Mrs. Jack Preese. Presiding at the door were Mrs. R. B. Skinner and Mrs. Charles M. Nickerson, assisted by Mrs. T. Long and Mrs. P. Johnson.

## VERITABLE FAIRYLAND OF LAKES, BATHING BEACHES AND WATERFALLS

(continued from page one)

during the summer of 1924 over a route by way of Diana Lake, Rainbow Lake, Harrison Lake, and down through Tye Park to Tye Station on the C.N.R. This survey was carried out under instructions from the department of public works issued to Major Taylor, resident district engineer, a copy of which report is on file with the department.

I voice no protest to the building of a branch road to Port Edward, or even as far as the canneries, but I register an emphatic protest against the other route being abandoned without giving it the fullest consideration as I believe the great majority of the citizens of Prince Rupert were in favor of it going that way. I think I am voicing the opinion of the majority of the citizens as well as my own opinion when I say that there are unanswerable arguments why it should be built by the way of the interior. The distance is shorter, the grades are light, and the engineering difficulties no greater than by the way of the railroad. But these are minor considerations, there are other reasons which appeal to me as being of far greater significance.

The road would course through a veritable Jasper Park, follow the shores of several beautiful lakes, with scenery as grand and magnificent as that of any of our boasted natural parks in British Columbia, snow capped mountains and glaciers visible to delight the eye of the tourist, and all the delights of a great summer playground. There are hundreds of acres suitable for truck gardening. It would with the growth of the city become a great suburban adjunct to Prince Rupert, with hundreds of homes. It offers the only possibility of a golf course in the near vicinity of Prince Rupert. There would be permanent settlements spring up along this route. There would be numerous playgrounds and other pleasure resorts, fresh water bathing beaches where a thousand children could disport themselves. Two of these inland lakes are large bodies of water being several miles in length where the pleasures of boating could be enjoyed in calm inland waters. There would in a few years be a traffic of hundreds of cars coming and going at all times during the summer, and the value to Prince Rupert of a thousand suburban residents would be more than the doubtful value from all the canneries on the Skeena combined.

The canneries are with us today and effort to establish agricultural possibilities and settle the Finlay Forks district, north of Prince George, where he is now extensively interested in lode-mining. Finlay Forks, at the confluence of the Peace, the Parsnip and the Finlay Rivers, it is expected, will stage a comeback as a result of the mining development at the Ferguson and Fernambour groups of claims. The country in the past has seen some development but not as thorough and extensive a scale as is now proposed.

surely we are not building the road as a commercial undertaking to get a doubtful cannery business. The suburban population would be with us always and in increasing number.

By building the road over this route we will have opened up a wonderful recreation ground and park of our own years before we reach it. It will give a diversity of attractions apart from its bathing beaches, its boating, its detours and pleasant walks, its mountain trails and by-ways, its creeks and waterfalls—places so attractive that the tourist instead of passing right through will linger with us for weeks and then be loth to leave.

It will be just a pleasant ten, fifteen or twenty mile drive, as you like, with somewhere to go, and something so entirely different from the waterfront that it will feel like being transported to another country.

The Butler townsite, owned by Minneapolis people is within the confines of this park and the road would pass through it. The people who own it, and have visited it, consider it one of the most beautiful spots they have seen in their visits to Canada, observed from the viewpoint of natural scenery, and with the completion of the road through their property I am satisfied that they would immediately proceed with the development of their holdings.

I learn that some members of the government anticipated the road being built along this route, as applications for the purchase of land on the shore of Diana Lake were turned down, and the reason advanced was that the land was reserved, and might be subdivided by the government for townsite purposes.

## Man in the Moon

Girls who wish to look graceful should not talk and chew gum at the same time.

Jake says he hears there is an election campaign going on in the States and he wonders what it is all about and he wonders what it is all about as a man named Smith mixed up in it and wants to know if it is one of the local Smith's.

A young man without money is something like a car without gas. There's something lacking.

The chief difference between gasoline and groceries is that which each must be paid off the former, the latter can be charged.

If you can't get what you want at the department stores, try the drug store.

The man must face the music  
 No matter what the tune  
 He can't escape once he is wed—  
 The poor benighted prune.  
 But a candidate in politics  
 Can shift and twist and turn.  
 To boldly meet the issues all  
 He never seems to learn.

## SKIDEGATE

H. C. Fraser, school inspector, who has been visiting all the schools of the neighborhood walked over the trail to Port Clements after he had completed his work here.

Rev. J. Gillett, Indian agent, accompanied by Mrs. Gillett who have been on a visit here, returned recently to Port Clements.

Mrs. I. Martin and Mrs. R. Scott were recent visitors here from Queen Charlotte City.

W. Stresman has resigned his position with the Gillespie and Pahul Logging Co. here.

Mrs. R. Pahul gave a very enjoyable party at the "Igloo," Queen Charlotte City last week.

Supporters of S. M. Newton here are glad to know he is in the field as an independent Conservative and he will get considerable backing here.

I. Martin, forest ranger, gave a lecture last week at the Skidegate school on fire fighting which proved very instructive.

G. D. Beattie of Queen Charlotte City has gone to Vancouver for a holiday and A. J. Gordon is looking after the business during his absence.
