Long Voyage Was Wonderful Feat.

The long voyage of the British dirigible R-34 was a wonderful feat. It reminds one of the famous voyage of Christopher Columbus when he discovered this continent. The men were often lost in the clouds but they held on and finally made their objective just before the gasoline supply was exhausted.

The interesting feature of this voyage was the fact that the airship was in communication with the rest of the world by wireless nearly all the time. Even though lost in the clouds or fog the officers were still able to send word of their progress.

Major Scott and the other officers have not only made a record but have shown another example of British pluck and endurance.

Municipalities Want Automobile Licenses.

The City Council was last night asked to endorse the proposal to have the provincial government hand over to the municipalities half of the amount collected from automobile licenses and half the personal property tax charged on cars; the same to be used for improving the roads.

Some such move as this has been discussed for a long time. Before the war it was mentioned, but during the war all suggestions for weakening the taxing power of the province were dropped. Now it comes up again through the automobile associations. All they are asking is that half the amount collected be handed over to the municipalities. The other half is spent by the provincial government in improving the roads outside the cities for the benefit of the city dwellers.

In Prince Rupert the city gets no benefit from outside roads because as yet there are not any. Very soon the provincial government will have to commence construction of a road up the river to the canneries and then we shall get our share of the expenditures.

Naturally the provincial government with its immense inherited debt and with the necessity of spending much money on reconstruction problems and soldiers' rehabilitation, is loath to give up any of its means of raising revenue. It may not see just where it can replace the quarter of a million dollars a year it would have to hand over under the scheme.

Press Service is Great Organization.

Through the widely extended ramifications of the organized press services we are able to read every day of the doings in all parts of the world. This is the much maligned "capitalistic press," the only concern that ever would have made news collecting a possibility.

The evolution of the press is to some extent the evolution of the foreign news service. All the world is now linked up by a network of news agencies that record anything that is happening in any part of the world that is worth a paragraph. No state system would or could ever have arranged such a system. It is a natural growth of the commercializing of the news of the world.

The tired laborer who throws down the paper and says "there is nothing in it" would feel the loss just as much as anyone if the service was stopped. During the strike in a neighboring city when the strikers were vilifying the press and claiming that it never told the truth, one of the leaders often stepped up to the editorial rooms of one of the local dailies to find out how the strikes were progressing in other cities.

The news service is a wonderful organization and even the small services that the local papers can afford to buy would be very much missed if they were stopped.

Eastern Prices on Community Silver

We just received a copy of the Robert Simpson Co. catalogue and find that our prices on Community Silver are exactly the same as theirs. We mention this as proof that we are trying to give our customers as good service as they can get anywhere.

Other things we can prove it by are Big Ben clocks, Waltham and other watches, Waterman pens, Rogers silver and almost any well known article.
