Report on Export and Shipping crop is concerned. Deals with Grain Shipments to World Ports.

Vancouver Merchants' Exchange. lion bushels, or 48 per cent.

The movement of grain from The new movement via STOLE BIC Columbia is partly in the Pacific ports and the amount of liner space vancouver now ranks we'll as BEDFORD, OULDED quantity available for movement ports. able is comparatively lower than handling. can be paid by other commod- With the trend of wheat-growities such as canned goods, fruit ing ever westward, we can antiand general cargo, and consequently grain is regarded by the liner companies as a "ballast" to come. cargo to fill hold space not required for more remunerative freight. The constant availability on the Pacific Coast of grain to fill the holds has induced a very Total of 52,500 Pounds of Halirapid development of the liner trade to Europe and a greater amount of liner space is thereby available year by year for the grain movement. Nevertheless tramps continue to carry a substantial proportion of the exports, varying in the past few years from 30 per cent to 60 per cent, follows: according to conditions prevail-

Reason of Development

The reason of the development and 7c. of this new route are as follows: Impereuse, 20,000 pounds, 1. The greater accessibility Booth Fisheries, 13.6c and 7c. of European markets via the Panama Canal.

from the Pacific Coast to Europe Atlin Fisheries, 13.6c and 7c. to the opening of the Panama Fish Co., 13c and 7c.

2. Increase in the production of grain in Alberta and Saskat- SNOW FALLING TODAY chewan and the gradual migration westward of grain growing in Canada.

In the past twenty-five years the wheat production of Manitoba has remained stationary; Saskatchewan has grown from practically nil to 200 million bushels or more; Alberta from nil to 150 Hor 175 bushels each season.

3. The reduction of formerly temp. 42. prohibitive railway freight for the movement of grain for export from the Pacific Coast.

Until recently the cost per mile was greater westward than eastward, which constituted handicap against the western route. By a series of reductions temp. 40. this differential has now been wiped out, in consequence, it is wind. now economically advantageous to ship grain from all Alberta and the western half of Saskatchewan to the Pacific Coast.

4. The construction of efficli ent modern grain elevators and 'oading equipment at Pacific 32. Coast ports.

Until 1924 there was only one temp. 28. elevator on the Pacific Coast, at Vancouver, having a capacity of 20. 1,250,000 bushels. There are now seven elevators at Vancouver with a total capacity of eleven million AIMEE McPHERSON bushels, and one each at Prince Rupert, New Wesminster and Victoria, making a total capacity on the Coast of 14,000,000 bushels. 5. The development of a market in China and Japan for Can-
