WHEN you hire us to do the family washing, you are not put to the expense or bother of feeding us. We eat nothing! Neither do we ask you to pay our carfare. Instead we call for and deliver your washing. We buy our own soap, starch and bluing. Heat our own softened water. Use our own electricity, too. There's no "pickingup" after us. We take all the messy work out of your home, giving you an extra day to do the things you like to do! Yet you'll find our charges most reasonable - considerably less than it would cost you to do the same work at home. Try us, and see!

RATFARMING

Alberta Government Preparing Plan For Utilization of Swamp Lands of Province

EDMONTON, Feb. 22 .- More than 500 applicants for muskrat farming licenses have been made to the Alberta government, but to date not a single license has been granted, although legislation which brought the province into this industry was passed a year ago. This

Alberta rat farming business was that governments satisfactorily adjusted. He intimated that practically all de-In the final section, dealing with tails were now in satisfactory shape surrency, banking, and taxation, the and he hoped for a considerable speed-

A series of articles entitled "The Frontier of Accord" from the pen of Isaac F. Marcosson, internationally known writer, is started in the current issue of the Saturday Evening Post and gives promise of being most interesting. Mr. Marcosson has taken Canada as his subject in the series and, in his preamble, states that "an effort will be made to place her in the American, as well as the world-wide. scheme of things." There are some good illustrations in the first article.
