Vancouver Has Larger Export Trade This Year Than Montreal States Grain Exchange Retiring Chairman

These Days Should be the Biggest Vote Making Days of the Entire Campaign

With "Opportunity Week"—which represents the first, last and only vote bonus offer in The Prince Rupert Daily News' Campaign—ending Saturday night, it is only natural that each candidate will get every possible subscription into campaign headquarters by that time.

The big extra vote offer in effect only until 9 o'clock Saturday night, August 11, will work wonders for anyone who has automobile aspirations. The Opportunity Week vote offer is the stepping stone to victory—it is the means whereby anyone entering the campaign now as well as anyone who is already entered, can easily place his or her name among the leaders. As a matter of fact, the campaign is just cutting its eye teeth.

Start now to build your way to success.

Up to and including 9 o'clock Saturday night every subscription you turn in is worth many more votes than it will be at any later date in the campaign. What you do by 9 o'clock Saturday night can mean a great deal to you when the final vote count is made The 2 big enclosed cars and the three large cash prizes (not less than $100 each) will be given to the candidates who have the most votes, and the subscriptions you secure and turn in on or before 9 o'clock Saturday night, August 11, mean many more votes to you than the same subscriptions will mean if not turned in until a later date in the campaign.

These days should be the biggest vote-making days in The Daily News' "Everybody Wins Something" 2 automobiles and cash prize campaign. The opportunity is here for candidates who realize that this is business and not mere play.

If you are still undecided you are advised to consider the enormous gift list headed by 2 luxurious enclosed cars—a Pontiac Sedan and a Ford Sedan.

You want to win. Of course you do. That is evident by the interest you have already shown. You know that it is possible to get subscriptions. They are being gotten when candidates go after them. Then be awake. Start something. Get busy!

One of the town's "wise" boys was heard to remark that it would take dozens of subscriptions to win the big prize. And the other increased the ante to a hundred.

Will Kick Themselves

The truth of the matter is—these wise (?) ones and some others are going to be kicking themselves when this campaign is over. They are going to realize then, when it is too late, just how few subscriptions it did take to win first choice of all the prizes.

Others are going to say, "Why I could have got double that." Sure, and probably they could have. But if they did not, what's the use of saying. "There's no chance to make money around this town," afterwards. The time for action is here. Do it now, when your effort counts for something.

Opportunity Here

If candidates could only realize their opportunity. If they could only be made to see that one subscription today is worth up to four subscriptions at the end of the Campaign. The Daily News feels sure some of them would ever, more effort.

Let's go. Let's do something. Let's turn in a real batch of subscriptions Let's assume our place in the vote columns.

All together now—let's go!

Campaign headquarters will be open tonight and each week day evening until 8 o'clock. Next Saturday night they will remain open until 9 o'clock. Phone 534. You are invited to participate.

BUCHANAN BOYS HERE TOMORROW

FIFTY LADS UNDER LEADERSHIP OF DETROIT PHILANTHROPIST WILL MAKE TRIP NORTH

Making the sixth successive year that he has brought a large party of Canadian and United States' boys across the continent and up the coast to Alaska, George E. Buchanan, Detroit coal dealer and philanthropist, will be here aboard the Princess Charlotte tomorrow morning at the head of a party of fifty boys bound for the Yukon and Northern British Columbia. Mr. Buchanan, who has made a hobby of fostering thrift and travel among boys for some years past, has so perfected his plan that "Buchanan Inc." has been incorporated with the object of making this annual tour a perpetual institution. Mr. Buchanan has now arranged for a fund to be administered after his death to carry on this work.

This year there are only two Canadian boys in the party, the balance being from Eastern United States' cities with the preponderance from Detroit. Accompanying the boys is Rankin A. Waugh, Chicago photographer, who takes movies of the party at the various places they visit. There are also a number of parents included in the party.

MAKING CHANGE IN PREFERENCE

BRITISH MUST NOT CLAIM LOW TARIFF RATE UNLESS GOODS HALF MADE IN BRITAIN

OTTAWA, Aug. 9.—The Citizen says: "A very important regulation affecting British trade with Canada scheduled to go into effect this fall as a matter of policy has been agreed to. As the idea originated with Hon. J. A. Robb, his return from abroad is awaited before the necessary regulations are considered.

"There has long been complaint about goods, very largely manufactured in foreign countries and then sent to Britain for finishing touches, and exported as being made in England."
