CANADIAN WOMEN OLYMPIC CHAMPS

CITY TAX COLLECTIONS ARE AWAY AHEAD OF LAST YEAR

Canadian Women Are Champions in Track and Field Events at the Olympiad with 34 Points

United States Comes Second and Germany Third Followed by Poland and Sweden Respectively

AMSTERDAM, Aug. 6.—The first Olympic women's track and field championship goes to Canada, whose girls captured the last two of five events in a record breaking fashion. The final point brought Canada to 34. Canadian athletes male and female captured four out of about eighteen events, competed in. Several seconds, thirds, fourths fifths and tenths went to them. Following is the standing of women in several countries:

Canada 34.
 United States, 28.
 Germany, 23.
 Poland, 10.
 Sweden, 8.

Five other countries secured a few points. United States held the lead in the men's track and field with eight championships, five of them in field events, while the British Empire with two victories won by Canada, two by Great Britain, one by Ireland, one by South Africa triumphed six times. All these were won "on the flat," and gives the British dominions supremacy in track events by a margin of two events over the Finns, who with a total of five scored on their championships in the field.

Walter Spencer of Montreal was among the qualifiers for the semi-final 200 metre breast stroke. Alfred Phillips of Toronto came third in the first series of the springboard diving events, thus qualifying for entry into the final.

OAXACA IS ON HER WAY SOUTH

PANAMA STEAM YACHT, IN TOW OF SALVAGE KING, GOING TO SEATTLE FOR REPAIRS

After having been ashore in Wrangell Narrows, a short distance south of Petersburg, for about a month, the steam yacht Oaxaca, owned and commanded by Capt. G. Allan Hancock, Los Angeles multimillionaire, was successfully refloated at the end of last week and is now on the way to Seattle where she will be dry docked for repairs. Officers of the south last evening, reported that the big salvage steamer Salvage King, which carried out the job of salvaging the Oaxaca and is towing her south, and her tow were at Butedale taking water yesterday morning. The yacht, with a big hole amidships which was temporarily patched, was evidently riding well.

The treasurer further announced that the Canadian National Railways this year under agreement, had paid \$78,586.60 in taxes as compared with \$75,609.16 last year under the levy of fifty mills.

Aviators Rescued After They Had Jumped Overboard and Were Swimming Around Their Plane

LISBON, Aug. 6.—Major Idzikowski and Major Kubals, Polish aviators, who attempted a trans-Atlantic flight in a single-engine plane without radio equipment, were rescued one hundred miles off the northern coast of Portugal on Saturday afternoon by the German steamer Samos and landed Sunday at Leixoes, Portugal. A broken pipe line forced the flyers to descend to the water near the Samos after they had flown twenty-one hours of the forty-two it was estimated it would be required to reach New York. The airmen had located the Samos and had dropped a message asking the steamer to stand by. The heavy machine struck the water with such force that the wings smashed. Idzikowski and Kubals jumped overboard and were swimming around the wreckage when the steamer came up and rescued them. Both the aviators sustained injuries. Kubals slipped after he had been taken aboard the Samos and cutting his forearm on glass. Both airmen plan to leave for Paris on Wednesday.

Within the next week or so the planes will be moved here to be based out of Prince Rupert for the remainder of the season with one going to the Queen Charlotte Islands.

Canadian Girls Win Two Races on Final Day of Big Olympic Field Meet

Canadian Men Were Disqualified in 400 Metre Relay Race Because Hester Dropped the Baton Which is Contrary to Rules.

AMSTERDAM, Aug. 6.—Canadian girls take equal honors with the men from the Dominion in the track and field section of the Ninth Olympiad which concluded yesterday.

A girl's relay team composed of Fanny Rosenfeld, Ethel Smith, Janet Bell and Myrtle Cook of Toronto won the 400 metres relay finals yesterday in a new world's record time of 48 2-5 seconds. U. S. came second, Germany third and France fourth, Holland fifth and Italy last.

Ethel Catherwood of Toronto, until a year ago a resident of Saskatoon, broke the world's record in women's running high jump with a leap of 5 feet 3 inches. Thus the two victories of Percy Williams in the hundred metres and two hundred metres sprints is balanced by the achievements of the female contingents.

Canadians in the men's 1600 metre relay ran a great race but were placed third, just snatching the position from the Swedish runners. United States came first and Germany second, Britain fifth and France sixth. The time for the winner was 3 minutes, 14 1-5 seconds, a new world's record.

In the 400 metres relay the Dominion's representatives were unfortunately disqualified. Hester dropped the baton in handing it to Percy Williams which was sufficient to disqualify the team. If Williams had continued running, which he did not, in last 100 metres, he had a hopeless task of trying to get even terms with his flying competitors. The race was won by the United States team, which equalled the world's record. Germany came second, Britain third, and France fourth.

The gruelling marathon was won by a French Moroccan El Quafi with the leading Canadian, Cliff Bricker of Galt, Ont., in tenth place. Plaza of Chill came second. The 26 miles 385 yards was run in 2 hours 32 minutes and 57 seconds, less than 22 seconds short of the Olympic record.

Both Districts Need Live People as Candidates for Daily News Free Gift Campaign Now Going On Here

Both districts in the Prince Rupert Daily News Campaign are literally crying aloud for active candidates. For some reason very little progress has been made by most of those now entered in the list of candidates. By far the greater number of candidates whose names have been entered in 'The News' campaign are candidates in name only. As will be shown by the new vote count which is printed in today's paper very few votes have as yet been cast to the credit of any one candidate.

In fact the biggest share of votes cast to date have been brought in or sent in by friends of the various candidates and not by the candidates themselves.

"Neglecting Genuine Opportunity
 "I made a check-up on all candidates today," said the circulation manager Saturday night, "and I find a very small percentage of those who have been nominated have reported in with subscriptions."
 "In fact," he continued, "the gift list in some respects today is larger than the number of persons who have reported with subscriptions. And this too, in face of the fact that in each of the districts the number of nominations is unusually small."

In view of the fact that all you really need to profit in this distribution is a willingness to suggest to people that they give you their renewals or new subscriptions for 'The Daily News,' and in view of the fact that should you fail to win a big gift for yourself you will be fully compensated for your effort with 10 per cent in cash of all your collections on subscriptions, it would seem there are scores of folks neglecting a genuine opportunity.

Nominations Still Open
 The Daily News will pay you generously for results even though you sell only an occasional hour of a day. This is, first of all, a spare hour position. Few there are, indeed, who could, if they would, devote more than a part of their time to this profitable, enjoyable, spare hour occupation. And it is pleasant work. You enjoy yourself while doing it. You make new friends and new contacts through the work. No drudgery in connection with these dollars. You are your own "boss," too.

Nominations are not closed. Far from it. This campaign is only starting. There are many more candidates who have not accomplished anything than there are who have. The campaign is hardly under way yet. Certainly some candidates have not got into their stride yet.

"Opportunity Week" starts today and ends next Saturday night, August 11. The time from now to Saturday night of this week is, beyond question, the
