

Vacation Time

is here again, with its call to the Great Outdoors. In the course of the next few weeks, thousands of people will forsake the cities to seek rest and recreation by lake and stream and in the depths of the cool, green Forests.

Remember!

This is the month of July when the Fire Hazard is at its height. Be rigidly careful with Fire. Get your camp fire permit; have it always with you and follow its simple instructions. The consciousness of doing your part to Protect the Forests will add materially to your enjoyment of them.

Rev. G. H. Raley, principal of the Pasqueleza Institute at Sardis, was a passenger aboard the Catala last night going through to Stewart with a small group of native children who have been attending his school. Mr. Raley will be returning south tomorrow.

Mrs. E. McBrearty and Mrs. J. Wickham, of Montreal, who have been visiting for the past ten days with Mr. and Mrs. Harold McEwen, Fourth Avenue West, will sail tonight on the Prince George for Vancouver and will visit in Seattle, Portland, St. Paul, Chicago and New York before proceeding to their home.

Mr. and Mrs. W. E. Williams and two daughters, Enid and Claire, arrived in the city last night on the Catala from Vancouver and proceeded immediately to the Billmor Spruce Mills camp at the south end of Kaien Island where Mr. Williams will inspect progress on the new sawmill construction. They will be back in town for a brief visit before returning south.

"Build B.C."
Pacific Actually Is Richer

Because it is a product of British Columbia Mrs. J. C. Sherman of Vancouver bought her first can of Pacific Milk, as her husband believes in giving preference to local industries. "I found it a richer milk with a finer flavor," she writes, "and I have used nearly every brand of canned milk. It is a credit to the province." Thank you, Mrs. Sherman. We have striven to make it so.

Further particulars of the Chief Forester, Victoria, B.C. or District Forester, Prince Rupert, B.C.

Nervous Wreck

Restored to Health

There is nothing more trying than a nervous breakdown, not only for the patient but for those in the immediate household. In this type of case Chiropractic is especially valuable.

Miss Gordia Herring, who writes the following testimonial, is only one of the many thousands who has discovered the value of Chiropractic. How many women there are who go through life, year after year, suffering acutely because they have been unable to find relief. They continue to search for the health which every individual has a right to expect. If they only knew it, their chiropractor could restore that health.

Miss Herring writes: "For two years my health had been failing. I grew weaker and weaker, and was a nervous wreck, almost past getting about, and unable to work. Before giving up, I decided to try Chiropractic. I was assured that if I would continue adjustments long enough I would receive my health again. Availing myself of the opportunity, I soon began to improve and in six weeks I was able to begin work, and have not lost a day in three and one-half months, feel good, and have gained 10½ pounds. I want the world to know that I feel grateful for what Chiropractic, by scientific adjustments, has done for me."—Gordia Herring.

My years of local experience have proven to me that this is not an exceptional case. Consult—
