#### Scurrilous Anonymous Chain Letters Are Being Circulated in Riding by Hidden Enemies of the Government

The opposition to the MacLean government is put to sad straits to try to induce the people to vote against the Liberal candidates. One thing being done is to send out anonymous chain letters vilifying the Liberal candidates. Here is a letter which is being circulated in this constituency and which we think will act as a boomerang and will injure any party that countenances such methods:

"To you, a Loyal Canadian: "Pattullo has disgraced us. He is a merciless, unscrupulous selfish egotist and tyrant. He is a menace to British Columbia and Canada. He has traded upon the resources of the province and done harm to the province that can never be undone. He has traded away for private gain resources that belonged to us and to our children. In political life he is a traitor and tyrant; in private life he is a poltroon and his atrocities in the past are nothing to

"Are we going to return such a man to power and further endanger the welfare of British Columbia?

what he will do in the future if he is returned.

"Help to uphold the integrity of the province and the Dominion. Make many copies of this letter and send to other citizens.. Copy word for word. Now is the time, later will be too late.

"A LOYAL CANADIAN."

That is the sort of campaign that is being waged and we think Prince Rupert people who read it will resent such action. Both the candidates are good men and good citizens and to revile them is to revile the judgment of the people who chose them as candidates. Answering the suggestion that the private resources of

the province have been traded away, it may be mentioned that | fully covered by insurance. out of 230 billion feet of lumber in this province, the Conservatives during their term of office nearly twenty years ago gave away 200 billion feet so that their was little left for any government to trade away even if they had wished to do it.

### Pattullo Enthusiastic Over Political Outlook After Tour of Interior

Says Many Former Opponents of Government are now With Them and all Liberal Candidates will be Returned

"I held meetings at all principal points between here and Prince George. I motored through a great deal of the country and met a great many people throughout the various districts and as a result of my survey backed up by the experience of a number of past campaigns. I am confident that we shall return a solid bunch of Liberal candidates from Central British Columbia." That was the statement made by Hon. T. D. Pattullo last night on his arrival from the interior.
