Peace Treaty is Laid Before United States Senate Along with the League of Nations

President Wilson Confers with Newspaper Correspondents and Expressed Gratification at Action of Germany in Ratifying Treaty; Must Force Compliance with Military Terms.

(Special to The News via G. T. P. Telegraphs.)
 Washington, July 11.—The peace treaty including the League Nations Covenant was laid before the Senate by President Wilson in an address accounting to the country for his part in the negotiations at Versailles.
 "The League," declared the president, "is born of the conviction that an international concern had become a world necessity to end the old order and guarantee civilization." He stated that in such a concern the world looked confidently to the United States for leadership, and added that while the treaty might not be exactly as the United States delegation would have written it, vital sacrifice had been made by necessary compromises.
 President Wilson conferred with the newspaper correspondents and indicated gratification that the treaty of peace had been ratified promptly by the German National Assembly. The president indicated that trade relations between Germany and the associated nations should be resumed at the earliest possible moment.
 It was made clear that a follow through should be maintained, Germany until the Germans complied with all the military terms of the treaty. It was pointed out that there were several million German soldiers in Germany and munitions sufficient for them to operate.

MORE MONEY FOR HOUSES IN RUPERT

Mayor McClymont gets Wire from Minister that Another \$25,000 Will be Granted by Government.

Mayor McClymont this morning received word from Victoria to the effect that another \$25,000 has been allotted to this city for the purpose of erecting houses, primarily for returned soldiers. This makes \$75,000 in all for the purpose and should build about 150 houses, all of which it is expected will be for returned soldiers. The wire received from T. D. Pattullo by the mayor is as follows:
 Under the terms of an Order-in-Council passed, \$25,000 is available under the housing scheme on application.
 Mountain pens free. See our ads. Fuller's. Phone 45.

REPORT ON SCHOOLS

Medical Officer Expresses Pleasure At Improvements of King Edward Playgrounds.

The medical report handed in by Dr. McNeill at the school board meeting last night showed that the health of the pupils and the teachers had been very good throughout the term in spite of the set back during the "flu" epidemic. At this time the board gave the Borden Street school which was used as a hospital for the time. Following this the walls had to be repainted and everything fumigated for the safe return of the children.
 Pleasure was expressed by Dr. McNeill at the successful draining and levelling of the King Edward school grounds. This has been a long-felt want by the pupils attending there. The hope was also expressed that the school room in the Hays building would be unnecessary during next term as the light was very bad for the children's eyes. That is an argument for a new school which can easily handle all the pupils with the proper facilities.

G. A. McNicholl, assistant general freight and passenger agent for the Grand Trunk, left by the Princess Mary on a short trip to Skagway.
 RETURNED MEN. All returned men are cordially invited to the G. W. V. A. smoking concert at the Central Hotel on Saturday, July 12 at 8:30. Refreshments provided. Everything free. 62

LAWLESS ACTS IN TIPPERARY

Text of Memorandum Proclaiming Sinn Fein Societies Out With The Law—Cables to New York.

(Special via G. T. P. Telegraphs.)
 New York, July 11.—A copy of the memorandum setting forth the alleged conditions in Tipperary County, Ireland, issued yesterday from Dublin Castle by the Chief Secretary for Ireland in outlawing all Sinn Fein organizations and Irish volunteers from Tipperary County, has been received here from British sources. Issuance of the memorandum was announced in yesterday's cable dispatches.
 The memorandum recites a series of lawless acts reported to the different peace officers in Ireland and quotes from two documents said to have been seized by the British authorities in Ireland.

MACHINISTS TO STAY BY UNION

Meeting Will be Held to Reorganize Trades and Labor Council Monday Next.

The Machinists Union announce that with the exception of one or two of their members they will stay by their international. W. H. Montgomery of the Longshoremen's Union says that with the exception of two or three the members of their union will drop the international and join the One Big Union.
 A meeting of those interested in retaining international affiliation is called for Monday next, when it is expected that they will take steps to continue the charter of the local Trades and Labor Council with the Engineers, Machinists, Retail Clerks, Typographical Union and carpenters affiliated.
 The semi-annual meeting of the St. Andrew's Society will be held tonight in the club rooms for the purpose of electing officers for the coming half year and other business. All members are requested to attend.

NEW SCHOOL DISCUSSED BY SCHOOL BOARD

Question of Water Supply for Building Simple—Playground is Important Feature.

At last evening's meeting of the school board there was considerable discussion in regard to the erection of the new school which has been decided upon. The only deterrent feature was the failure of the council to take action in the matter and to immediately have something done. There will be a joint meeting of the school board and the finance committee on Monday afternoon. A frame building is out of the question cause, according to the estimates, it would cost nearly \$50,000. The difference would be saved in insurance alone and then they would not have to be continually repairing it as was the case with the Borden Street School.

The matter of water supply was dealt with and it was pointed out that installing a pump would be a mere trifle as it would only have to be used in case of emergency. The children would have an adequate water supply without it. The main reason for the school going up on the hill is that the children will get some real good from the city's \$30,000 asset, the recreation grounds. It has been recommended by the city health officer who condemned the proposal of the site on ninth Avenue. The final arrangements will be made upon the return of Dr. Kergin from the south.

LT. McDONALD RETURNS HOME

Greeted by Many Friends as He Arrives on Train—Leaves Log Behind.

A large number of friends were at the train last evening to greet Lieutenant Wilfred McDonald who has returned home after seeing four years' service with the Canadian forces in France. For the past month or so Lieut. McDonald has been visiting with friends in the east, having spent some time in Ottawa where he saw several other of the Prince Rupert boys.
 Wilfred McDonald left this city with the Sixteenth Battalion under Lieut.-Col. Peck. While in the field he gained his commission for conspicuous gallantry while under fire. He returned to England for this and again went back to France after being severely wounded about a week before the signing of the armistice. It was at this time that he lost his leg, and it was rather a pathetic incident to see such an able bodied man having to hobble off the train with his crutches.
 Lieut. McDonald has lived here since the early days when the city was in its infancy. He is a real old timer, having worked with Foley, Welch & Stewart in the days of construction. Another brother Ray also joined up, but he has now been back for a few months.

Among those going north from here on the Princess Mary yesterday were Jos. A. Rogers, accompanied by Kenneth Scherk who are going on a fur buying expedition into Alaska. Mr. Rogers will go as far as Skagway, but Mr. Scherk will proceed right to Skagway and does not expect to return for some time.

WORKMEN RESENT CLOSING OF COAL MINES AT SYDNEY AND LOOK TO GOVERNMENT

DELEGATION WAITS ON CITY COUNCIL ASKING FOR WORK OR RELIEF AND TELEGRAMS SENT TO BORDEN AND ROBERTSON DEMANDING ACTION

(Special to The News via G. T. P. Telegraphs.)
 Sydney, July 11.—Due to the closing down of the collieries at Sydney mines a serious situation is reported to exist in that town. Last night hundreds of steel workers and miners marched to the city council chamber and a committee of the men laid the case before the councillors demanding that either positions or relief be given them immediately.
 Yesterday afternoon the men held a great demonstration at which J. B. McLachlin, secretary-treasurer of the United Mine Workers, was one of the principal speakers. The men were in an extremely determined mood and threatened drastic action if the situation was not relieved immediately. Already telegrams have been sent to the Prime Minister and to Hon. Gideon Robertson, minister of labor, informing them of existing conditions and demanding that the government take action to reopen the mines and steel works, as the latter are entirely closed down and only one mine is in operation and that at half time and 300 machinists are working only about two days a month.

ANOTHER TEACHER FOR HIGH SCHOOL

At the school board meeting last night J. C. Brady asked that another teacher be procured for the high school for next term. He expects that there will be about sixty attending, which will require another room. This forces out a whole class from Borden Street which cannot be cared for elsewhere and already King Edward has every room occupied and rooms are being used by the public school classes in the Borden Street school which were never intended for class rooms.
 The matter of the appointment of another teacher will be held over for a short time.

There was a large party of Shriners aboard the Princess Mary yesterday who are making the round trip to Skagway. Many are prominent business men from the south and took time to inquire and obtain as much information as possible about the city.

It was decided at the school board meeting last night to re-deck the approaches to the King Edward school. The planks are nearly worn through in places and are not safe for the children. The road leading to the coal chutes will also be repaired as teams have been breaking through in many places.

The C. P. R. steamer Princess Mary arrived in port from the south shortly after 2 p. m. yesterday with a large number of passengers who are making the tourist trip to Skagway. The boat stayed till four and gave those on board time to go ashore and look over the city which looked its best in the bright sunshine.

Captain Ormison, late of the Princess Victoria, is piloting the Princess Mary on her northerly trip this week. A delightful passage was experienced all the way and both sounds were very smooth. Basking in the warm sunshine the passengers were quite content to sit on deck all day.

A large quantity of lumber was brought up from Vancouver by the Mary yesterday. A number of fish barrels were also unloaded for the Prince Rupert Fisheries. Many of the local merchants were disappointed as they had expected a cargo of fresh fruit and vegetables. The next shipment of fresh perishables will arrive by the Prince Rupert tomorrow.

Secretary Vance reported at the school board meeting last night that 61 applications had been received from teachers to fill the local vacancies. There were 26 first class and academic certificates, 19 second, 15 third and 1 domestic science. The names will be wired to Inspector Lord who will look up the credentials of the applicants as filed with the Department of Education.

Following the report made by the city of the survey of the Borden Street school grounds it was decided by the school board last night that no more excavating will be done there as the present grade is below street level. More cinders will be procured and strewn over the surface and covered with sand. A ditch will be dug across the higher side of the grounds which will prevent the washing away of the sand. The work will be done by the city.
