

## NEW COMPANIES OF INTEREST TO PRINCE RUPERT

Langara Fishing and Packing Co. Has Head Offices in This City.

Two new companies incorporated recently, the notices of which appear in the British Columbia Gazette this week, are of interest to Prince Rupert people. One of these is the Langara Fishing and Packing Co. and the other the Great West Logging and Lumber Co.

The Langara Fishing and Packing Co., Ltd., is capitalized at \$50,000 and has its head office at Prince Rupert. One of the principal objects of association reads as follows:

"To purchase from Hume B. Babington and his associates all their right, title and interest in the fish-canning licence, site, buildings, and equipment, situate on Langara Island, in the Province of British Columbia, for the consideration of four hundred and ninety-eight shares of the par value of one hundred dollars each fully paid up in the share capital of the company."

The Great West Logging and Lumber Company, Ltd., has its head office at Vancouver and is capitalized at \$10,000. The objects in part are as follows:

"To acquire and take over certain logging equipment and machinery situate on Graham and Lyell Islands, in the Province of British Columbia, and with a view thereto to enter into the agreement referred to in clause 3 of the company's articles of association and to carry the same into effect with or without modification."

"To purchase, build and operate lumber, saw and shingle mills and factories for the manufacture of lumber, shingles, or other manufactures of wood and to carry on the business of logging, lumbering, timber merchants, sawmill proprietors, timber-growers, timber-cruisers, and to buy, sell, grow, and prepare for market, manipulate, export, import, and deal in timber, lumber, and wood of all kinds, and to manufacture and deal in articles of all kinds in the manufacture of which timber and wood are used or required, and to engage in and carry on logging operations and to traffic and deal in logs and timber of all kinds."

### Sport

Several angling parties are being organized over the week end for up the river and also in the nearer lakes such as Shawatlans and Woodworth. The fishing is at its best now according to many reports and if the catches brought in of late are any mark as to the truth of this, a person will surely be rewarded for a little trip up to Khtada.

Many people have been advocating a return to water sports during the summer months and especially to establishing prizes for races to be held on the various civic holidays. There is nothing more healthful than the outdoor exercises such as rowing and canoeing and opportunity has never presented itself more favorably to water lovers.

There will be another big baseball game on July 19 if this day is decided to be set aside for the peace celebration.

The drydock has been responsible for bringing many great things to this city but what greater than the nucleus of a first class baseball team. Clementson, Dravis and Tinetti spend their time between matches down at the ship-building plant. In the constructional days down at Hays Cove the drydock football team always gave the other teams a good run for their money. In the near future when a few riveters come here things will begin to look lively in the soccer league.

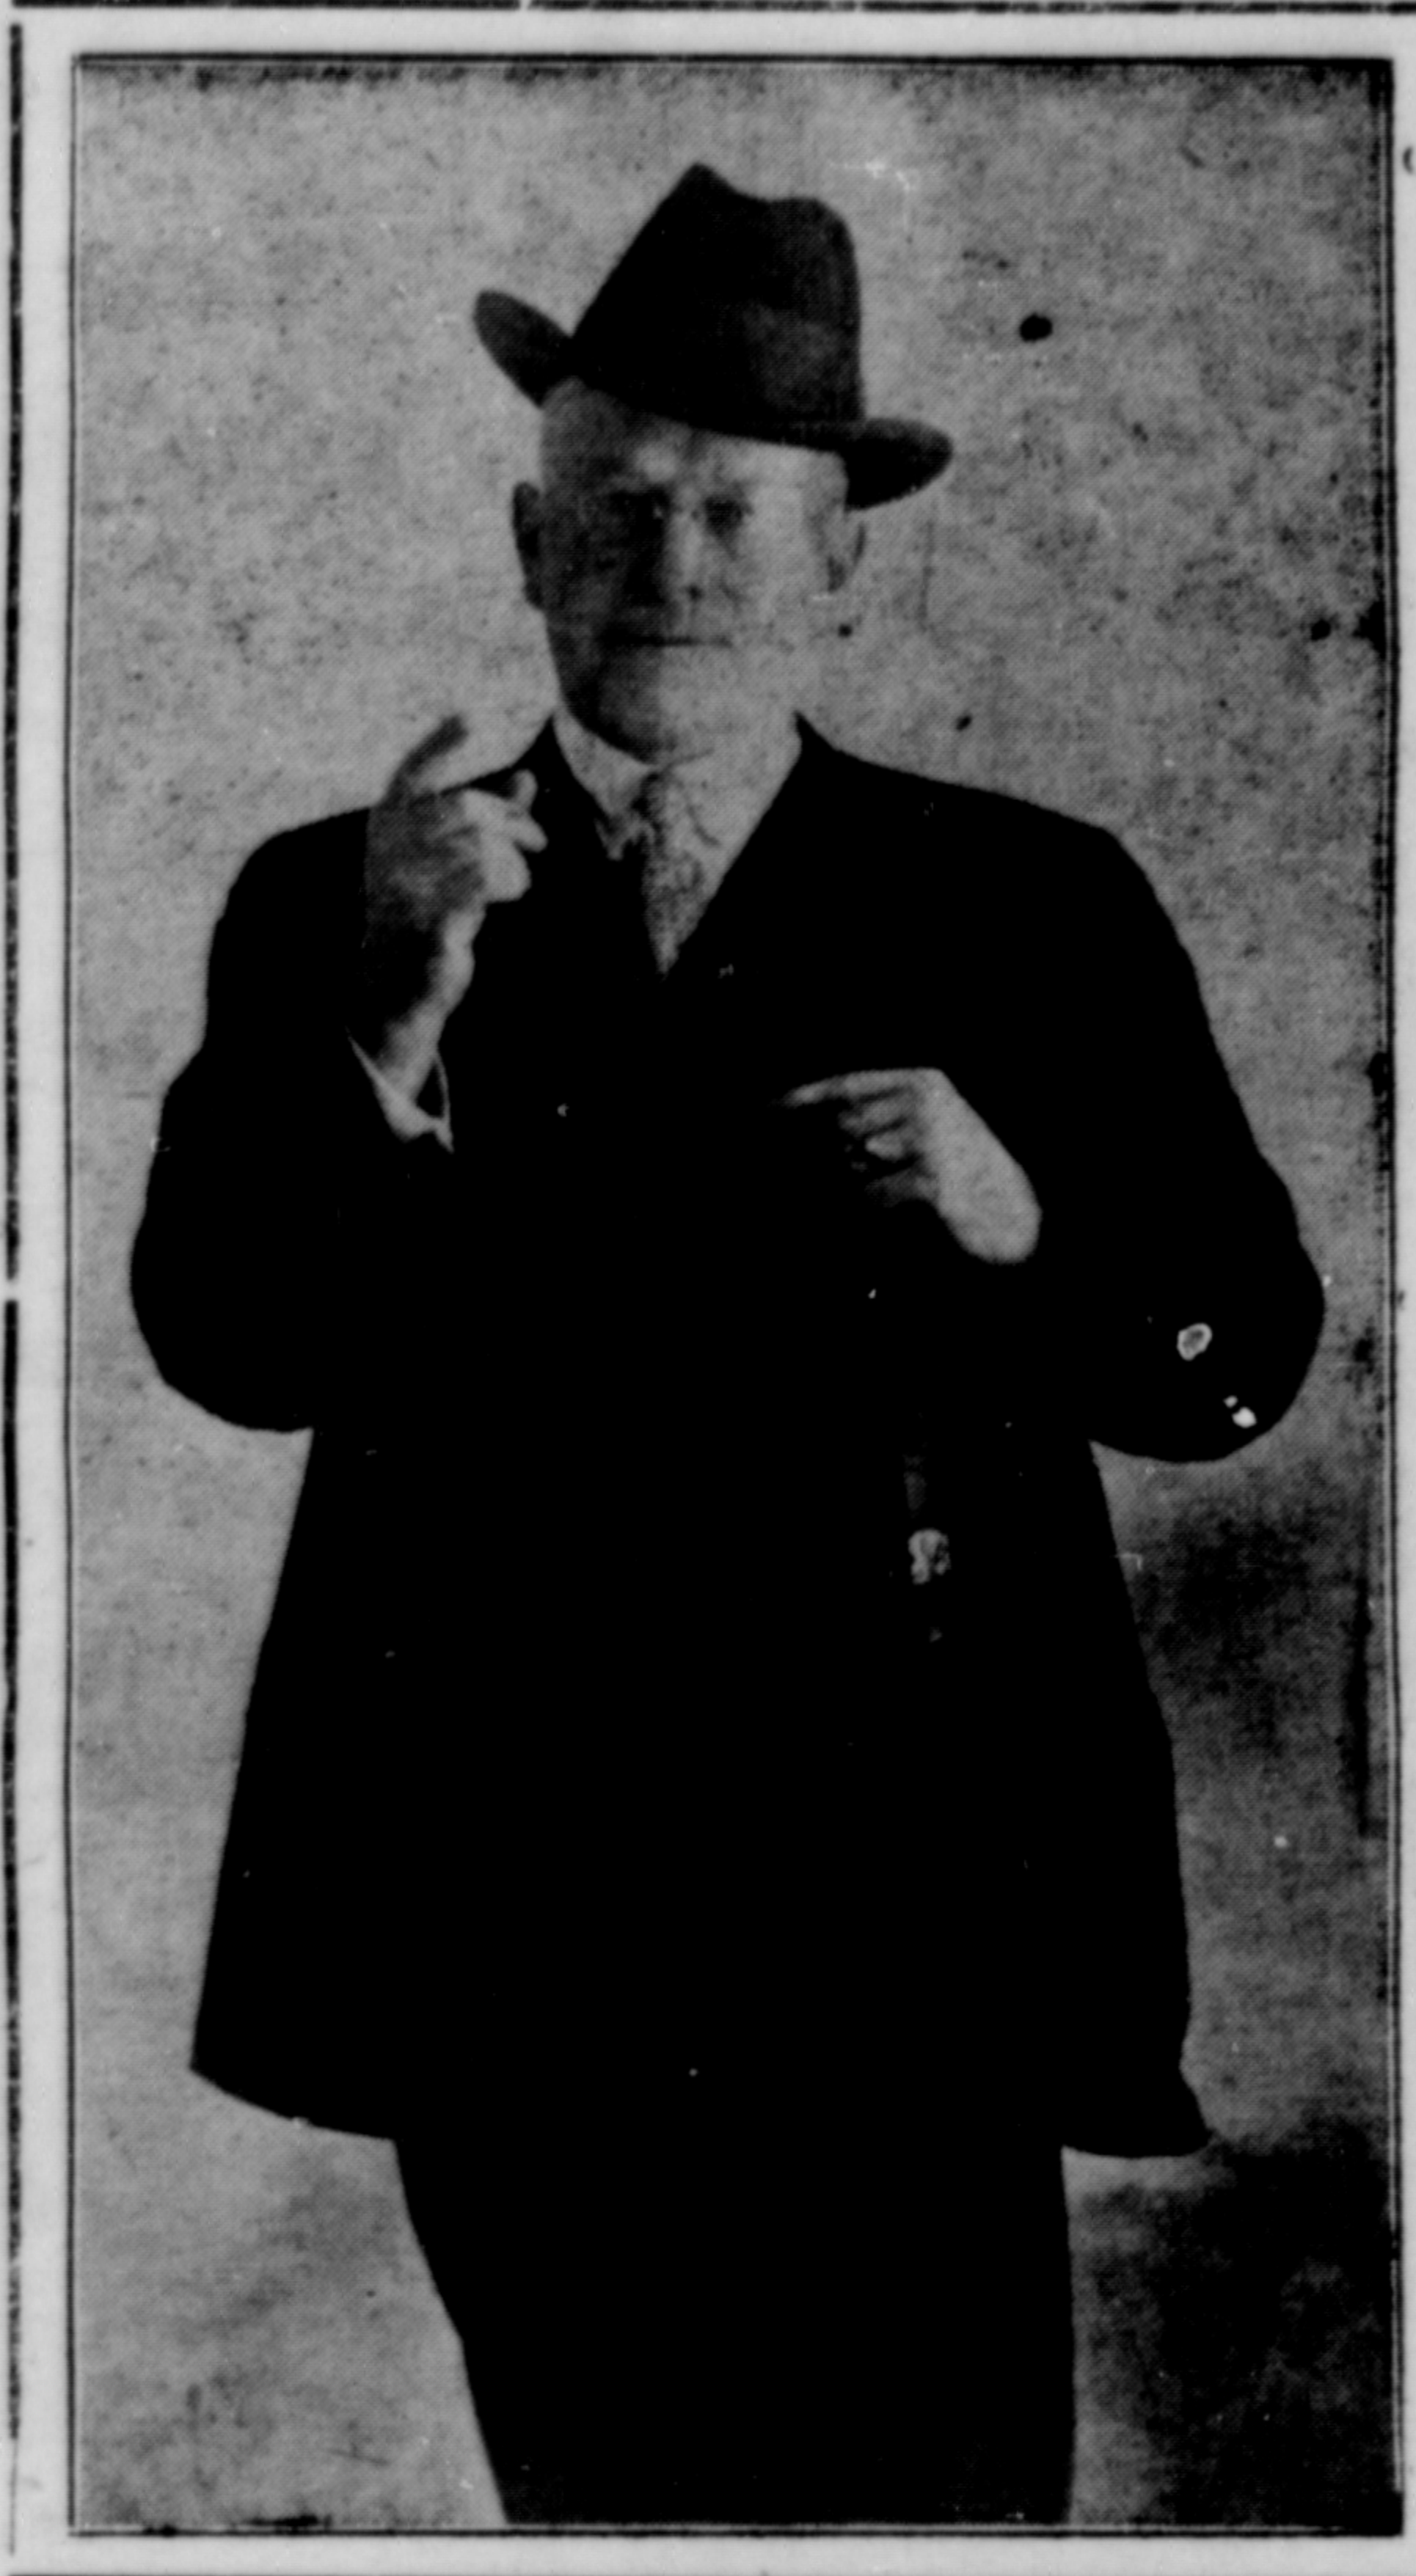

Geo. Hill, the catcher for the Junior baseball, plays a very fine game all the time. There are not many balls which get by when he is behind the bat. He also stands high on the batting list and the fielders of the rival team now play deep when George steps to the plate. He has also a well trained throw to second base.

Parent of Children Attending School Makes Complaint to Trustees, Who Will Investigate.

At the school board meeting last evening Mr. Director laid a complaint against the pupils of the Borden Street School and more especially the teacher for allowing her children to be called names around the school. Mrs. Director and family arrived here within the year and she stated that she had not been accustomed to that sort of treatment before. She asked that her children be allowed to attend the King Edward School when the term again opens. The board set the matter aside until the return of Principal A. M. McDonald when the incidents cited will be thoroughly investigated.

Dr. Page passed through the city a few weeks ago and ever since his arrival in the mining town has been busy with the renovation of the hospital there so that it will be fit to receive cases requiring an operation.
