DAILY EDITION Wednesday, Sept. 5, 1928

HONOR TO CANADA

It is a great honor to Canada to have the prime minister of the country vice-president of the League of Nations Assembly. The League is the most important gathering in the world at present and to have Canada so well represented there speaks volumes for the standing of this country in the eyes of other nations and for the quality of the man who is representing her.

WESTHOLME THEATRE

While we know nothing of the laws governing the inspection of buildings, we know that the people of Prince Rupert are anxious that the Westholme Theatre, no matter under whose management, shall be kept in operation until the other theatre is able to cater to the amusement needs of the community. After that we are not so much concerned. It then becomes largely a matter of business rivalry.

In Prince Rupert we need the attraction of a moving picture theatre and need it badly. Especially is this true during fair week. For that reason alone we hope some understanding will be arrived at by which the theatre may operate. If it could be used before the new seats and new machines were installed, it is difficult to understand the logic of closing it now, as long as the management is prepared to comply with the law in regard to theatres as early a date as possible. What we cannot understand is why the old conditions should have been allowed to continue as long as they did if the lives of people were being endangered.

PORT SIMPSON FIRE

The absolute need of having a fire department always in good working order seems to have been exemplified in Port Simpson where the hose stream was not strong enough to reach the tops of buildings. Of course it is a good thing to have water laid on even with a low pressure behind it, but it is probable that the pressure might be increased with very little extra cost.

We must congratulate Port Simpson on its getting off so easily as when everything looked so bad.

AND NOW FOR THE FAIR

Next week at this time the big fair will be in full swing. Much now depends upon the efforts of local citizens as to whether it shall be a success or not. Those who have flowers in their gardens are asked to enter them. Those who have needlework or other articles which they have done are asked to put them on exhibit. Let us all feel that this fair is ours and that it is up to us to make it a success. Then results will be achieved.

News of the Mines  
AROUND PRINCE RUPERT

Bitter Creek Mines Ltd. Financed—Cassiar Gold Starts Developments in Upper Salmon—Georgia River Gold Getting Down to Business

If certain negotiations which are now reported to be under way materialize, considerable capital will shortly be available for the development of the property of the Bitter Creek Mines Ltd. at Stewart consisting of nine claims composing the well known L. L. & H. group situated on the south fork of Bitter Creek. The Bitter Creek Mines Ltd. was organized last spring for the purpose of taking over and financing the development of the group. Two-thirds of the capital stock of \$1,500,000 is still in the treasury and the company has no debts so is in a good financial position. With completion of the negotiations for development capital, it will be in shape to institute an aggressive development campaign. Considerable work was already done by former owners in the driving of 375 feet of cross-cut tunnel which cut one

of the veins at 160 feet depth showing a width of sixty feet. This ore body showed values of from \$3 to \$11 in gold, silver, lead and zinc. Another tunnel, further up the hill, thirty feet in length, cut a very promising galena vein, carrying values in silver, lead and copper. There are a number of veins on the property, visible on the surface for considerable dis-

tances. The first work will be confined to open cutting and stripping these, preliminary to laying out an underground development program.  
F. C. Winkler, manager of the Cassiar Gold Mines Ltd., owning property in the upper Salmon basin, has arrived in Stewart to start a campaign of active development on the property. He brought in a large amount of equipment and supplies which have been moved up to the mine. The Cassiar consists of seven claims lying four miles north of

the Premier. Some fine surface showings of ore will now be opened up.

Harry Thomey and Frank Haugh have reported the discovery of rich ore on their claims situated above the Ben Bolt property on the south fork of Glacier Creek, the report attracting considerable attention in Stewart. Assays gave exceptionally high values and a well known Stewart engineer left immediately for the purpose of looking over the showing.

"It is a surprise to me that the developments just getting under way in the Portland Canal were not undertaken years ago," declares C. W. Tully, mining man of over twenty years' experience in Ontario, Quebec and Northern Manitoba, who has been making an inspection of the Stewart district. "Anyone experienced in mining and mines must be impressed by the ore showings that are now being opened up in different sections of the camp and the great promise of large tonnage of commercial ore which some of these new developments hold. The lack of cheap power seems to me to be the chief obstacle to rapid development. I am not familiar with the possibilities for large power installation in this locality but, if such an enterprise could be established, it would, I feel sure, be a profitable one and would very quickly result in making a booming camp of big production and Stewart a large and prosperous town. One does not need to be a fortune teller to see that this is your ultimate destiny which should not be much longer in developing. As regards transportation, this camp is ideally situated and some day in the near future I expect to return and find these hills a hive of industry and Stewart the busiest harbor on the northern coast."

The trail from the Portland Canal beach to the Georgia River mine, a distance of some nine miles, has now been completed and the first pack train went through recently. An additional dozen pack horses have been sent down from Stewart to rush in material for camp construction and supplies for winter. The intention is to work a crew of from 15 to 20 men all winter. A new adit tunnel will be started at once on the main vein for the purpose of developing at depth of 100 feet a rich shoot of ore which occurs on the surface, 150 feet from the portal, and carries very high values in gold. The Bullion vein tunnel will be extended to the intersection of the main vein from which point both it and the main vein will be developed, giving a depth of practically three hundred feet on the main vein and 150 feet on the Bullion vein. When the adit tunnel on the main vein reaches the southwest vein, the latter will also be drifted on, exploring it, as well as the main vein, at depth.

GOLDBLOOM'S SALE OF LADIES' FUR COATS

Would you like a fur coat? And would you like to get it at one-third less than the regular cost? Of course you would. Who wouldn't? The thing to do, then, is to visit Goldbloom's the old reliable fur dealer. Goldbloom is having a sale of furs before he leaves for New York. He goes next week to arrange for his purchases of raw furs and until he leaves, every article in his store is being offered at real sale prices—one-third below the ordinary price.

After being twenty years in business in Prince Rupert, Goldbloom prides himself on the number of his satisfied customers. He guarantees every article he sells to be as represented and to give satisfaction—with a money back guarantee. And no one can do much better than that!

So see Goldbloom this week about that fur coat, before he leaves for the east.

SITE NOT SELECTED

Messrs. Black and Armstrong, principals of the National Airplane Spruce Co. Ltd., reported yesterday that the site in or near the city for the sawmill they propose erecting has not yet been selected. Meantime, logging operations have been started up the Estcall river with about a dozen men now employed.

BOYS' BAND GRANT

On recommendation of the finance committee, a grant of \$200 was made by the city council last night to the Boys' Band fund. Both Mayor McMorlie and Ald. Prudhomme remarked that it was a very worthy cause.

Ten Years Ago  
in Prince Rupert

SEPTEMBER 5, 1918

Local merchants and citizens generally contributed generously to fund for the Trades & Labor Council's Labor Day celebration. The Canadian Fish and Cold Storage Co. and Lipsitt-Cunningham Co. Ltd. headed the list with donations of \$50 each.

Word has reached the city of the death at New Metlakatla, Alaska, of Rev. Wm. Duncan, founder of old Metlakatla Indian mission near Prince Rupert. He was 86 years of age.

George M. Beltrine, noted Hazelton guide, is a visitor in the city. Recently he drove 25 horses along a four hundred mile trail from Telegraph Creek to Hazelton.

"Build B.C."

A Letter About Coffee

A few days ago we gave the opinion of a coffee expert on Pacific Milk. Yesterday we received a letter from Mrs. Ethel Underwood of this city, who has observed the same result. She, too, says that Pacific Milk neutralizes the acids and adds tone to the coffee flavor.

BOILING OIL TOO MERCIFUL

"Well, madam, why don't you wish to serve on the jury?" asked the Judge.

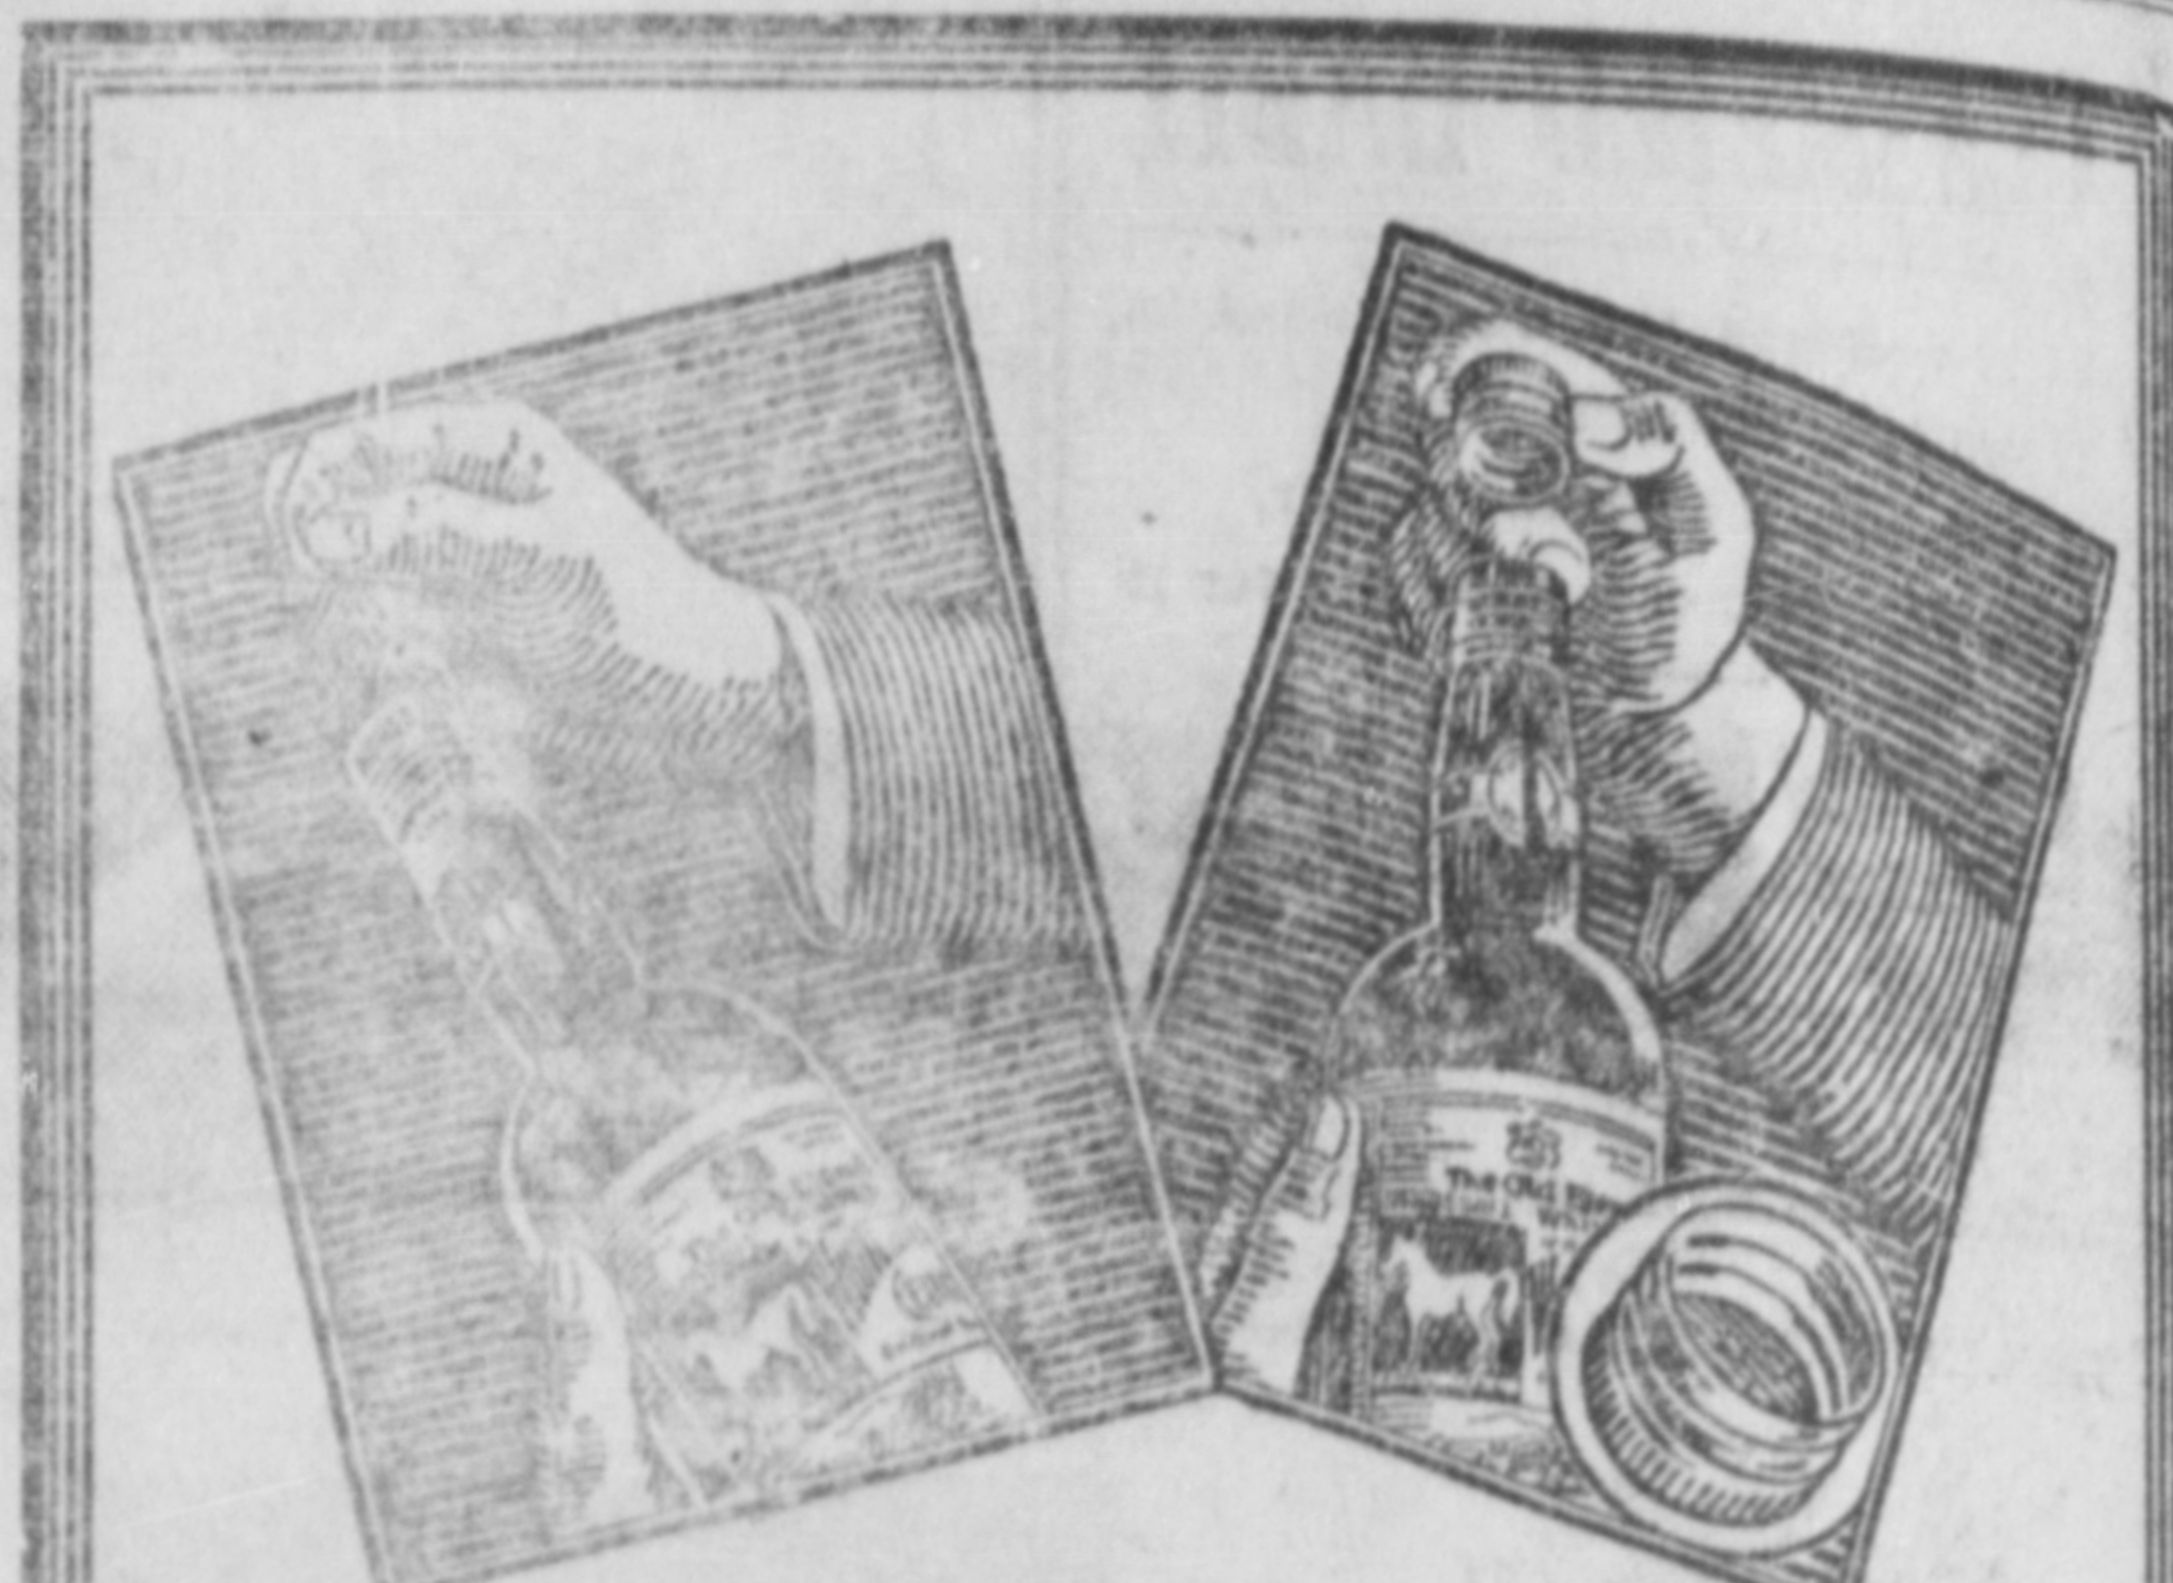

"I'm opposed to capital punishment."

"But this is merely a case in which a wife is suing her husband for an accounting. It seems she gave him \$500 to pay down on a handsome fur coat, and he is alleged to have lost the money at poker."

The woman juror spoke up promptly: "I'll serve. Maybe I'm wrong about capital punishment."

A treat in the Peppermint-flavored sugar-coated jacket and another in the Peppermint-flavored gum inside— utmost value in long-lasting delight

A NEW SCREW-CAP FOR 'REAL OLD SCOTCH'

With the new tear-off capsule and air-tight screw-cap, you can now open a bottle of White Horse in an instant. Very quick and very simple. No corkscrew required.

This new seal has captured everyone. Scotsmen are enthusiastic.
