YOU know how you douse your dainty lingerie up and down in a bowl of sudsy water . . that's the way your clothes are washed in a modern laundry. They are not rubbed or scrubbed but are gently swished back and forth in warm filtered rainsoft water until the pure soap actually foams. Every particle of dirt is loosened without unduly lessening the tensile strength of the fabric.. Then come many rinses of rainsoft water so that your laundry washed clothes not only look and feel clean but are scientifically clean.
