FROM the cold, deep waters of the seven thousand miles of British Columbia's Pacific Coast, comes a harvest of fish that the palate of all mankind enjoys! For over twenty years our Province has been a leading factor in Canada's fishing industry. Progress continues unabated...the markets to the ends of the earth demanding ever

The past ten years have seen this industry grow from 14 million to 27 million dollars . . . an increase of 89%. Our annual catch totals nearly half the entire Canadian production, and "King Salmon," our marine silver mine accounts for at least 15 million dollars a year.

increasing quantities.

The distribution from our Provincial hatcheries of millions of salmon eggs to renew the harvest that goes into the nets; the Treaty between Canada and the United States for the protection of the Pacific Halibut (March, 1923) providing a close season from November 16th to February 15th; modernized canneries, 83 in number, and sane Federal Fishing Laws, carefully administered, are the foundation of an industry that will continue to grow.

The fame of British Columbia's Whaling Fisheries is of long standing, and has materially increased the value of the products from this industry. The yearly catch, now about 400, is taken between one station on Vancouver

Island and two stations on the Queen Charlotte Islands.

Much as has been done to develop and conserve our fishing industry, there still remains a great deal to be accomplished. The vastness of our waters and the extent and ruggedness of our coast make organized protection and administration extremely costly.

But the safeguarding of our fisheries is a matter which now commands the earnest attention of our government, who realize the importance of conserving this basic industry.

As the oldest industry of our Dominion, fishing has been one of the largest revenue producers, and it is significant that Canada's youngest Province, in less than twenty years, should secure a leading position in the world market. This aggressive search for foreign business has been an asset which undoubtedly has created one of the most amazing records of our basic industries. Well may we be proud of our Fisheries!

Read these announcements and understand your province's 1 progress . . . clip them out and send them to friends. If you desire extra copies of these announcements a note to this newspaper will bring them. Advertise your Province!
