BACTERIA AND DAIRY INDUSTRY

PROFESSOR SADLER DISCUSSES LATEST APPLICATION OF SCIENCE TO BUTTER AND CHEESE MAKING

The application of Bacteria to the Dairy Industry was the subject of a most interesting address by Professor Wilfrid Sadler of the University of B.C. at the weekly luncheon of the Rotary Club in which the speaker elaborated the outline given by Professor Harrison the previous week, applying the science particularly to the producing of flavors in butter and cheese.

The speaker referred to the wonderful work done in Denmark by Emil Hansen in connection with yeast culture and the efforts of other scientists to apply the principles worked out in the brewing industry to the making of butter and cheese. It had been definitely ascertained that the work of micro-organisms have the special flavors to different kinds of cheese and this had been particularly applied in the making of a special brand of Swiss cheese in Denmark. In Butter the Danes had also applied the principles so as to produce a butter which had captured the British market.

In the manufacture of the special Swiss cheese it had been found that the culture would develop when used in connection with yeast. The yeast required air in its development and the other cultures required very little so they prospered well together. The culture had to die in order to flavor the live mixed cultures.

Professor Sadler spoke of the interdependence of the laboratory and industry, stating that each was necessary to the other for the best results. What they were working for now in the butter and cheese industry was quality and uniformity so that the industry could produce every time exactly the flavor that the public demanded.

BUCHANAN BOYS PAY VISIT HERE EN ROUTE NORTH THIS MORNING

George E. Buchanan, Detroit philanthropist, and party of fifty boys, making a tour to Alaska with his financial assistance, passed through the city on the Princess Charlotte this morning bound north. They will spend a week in the Atlin district before returning south at the end of next week.

After visiting a number of the more important cities on the way west, the boys spent Wednesday in Vancouver "doing" that city and that night two of them delivered brief talks over the radio from the Georgia Hotel broadcasting station. After leaving here for the cruise along the Alaska coast to Skagway, the boys will visit White Horse, Atlin and the Muir Glacier and will be returning south a week from this Saturday afternoon aboard the steamer Princess Louise.

Besides the education and experience of the trip, Mr. Buchanan also offers two gold medals—one for the boy who has conducted himself best on the trip and another for the boy who has been most helpful to the rest of the party. The disposition of these medals is decided by vote of the boys themselves. The Canadian Pacific Railway also gives a gold medal to the boy who writes the best essay on the trip. The total cost of the trip from Detroit this year is \$125 of which the boys must earn one-third while his parents puts up one-third and Mr. Buchanan provides the other third also taking care of addition expenses.

F. Biffin of the Alberta Wheat Pool's local staff returned to the city on the Prince Rupert this morning from a trip to Vancouver.

Harry Levine, who has been on a trip to Seattle and other points in the south returned to the city on the Prince Rupert this morning.

GOLDEN JUBILEE AT ESSINGTON

TWO DAY CELEBRATION OF FOUNDING OF MISSION CHURCH HELD AT SKEENA RIVER VILLAGE

PORT ESSINGTON, Aug. 9.—On August 4 and 5 the first golden jubilee of any mission on the northern coast was held in the United Church, Port Essington, in commemoration of the founding of the Methodist Mission there. Rev. W. H. Pierce, at present in charge of the United Church, was the missionary who came with the gospel. A large attendance was expected as many from all the canneries along the Skeena intended to be present but were prevented by an unusually heavy run of fish.

On Saturday evening after refreshments a concert was given. Rev. M. Eby, B. A. chairman of the evening, gave an address. Mark Bolton, on behalf of the village, welcomed the visitors. Albert MacKenzie, Vancouver, replied. Willis Spalding, Port Essington, sang. A very pleasing number was a star drill given by Benjamin Seymour's little daughters, Margaret and Josephine.

Mr. Pierce gave an account of the Mission's work during the past fifty years. He spoke of the pioneer missionaries who, with canoe and paddle, braved these northern waters in the extension of Christ's kingdom. His rendering of the Paddle Song and its interpretation was much enjoyed by the audience.

The Sabbath morning service was taken by Messrs. Pierce, Eby, and Jas. White, Hazelton, a leader in the church army. Mr. White speaking on the parable of the Wise and Foolish Virgins, took as his text, "Watch, therefore, for ye know neither the day nor the hour when the Son of Man cometh". The proceeds are for local expenses.

PUZZLER FOR DAVE

Picture Shows Local Sportsman Wondering How to Fry the Big Lake's Trout

Dave Stuart of Prince Rupert has just brought up a trout which is much too large for the frying pan. In an illustration in Rod and Gun for August of an article written by James Clyde Gilbert who was at Khatada Lake last summer, where the snapshot was taken. Dave is scratching his head and seems puzzled to know what to do with such big fish.

Another illustration in the same article shows W. O. Fulton's summer cottage at Lake's Lake.

ALICE ARM

Twenty-six mining properties of this district were represented in a mineral exhibit sent last week from Alice Arm to the Vancouver and New Westminster Exhibitions. It is one of the finest displays that has ever been assembled here and was handled by the Alice Arm branch of the British Columbia Chamber of Mines.

At the annual meeting of the Alice Arm school board which was held recently it was decided to cut the school assessment from \$1,350 to \$750, a surplus of \$600 in the bank to be drawn upon to make up the deficiency. Al Falconer was re-elected secretary and Mrs. L. O'Connor as appointee auditor in place of Mrs. W. M. Cummins who asked to be relieved.

Another successful and largely attended dance was held in the Alice Arm Hotel Saturday night.

The government road gang which has been working on the construction of the Toric road came down last week, the work having been completed.

T. J. Shepton, inspector of mines, was a visitor here last week on official duties.

Col. Victor Spencer and H. E. Wilmont returned last week to Vancouver after

No one is safe!

Office worker or porter, clerk or housewife—no matter who we are—every one of us may offend unknowingly.

Perspiration odour... here's the plain truth about it

IT is no secret that perspiration odour offends

In business as well as society, it is a serious handicap.

But do you realize that we are all subject to perspiration odour? That at times nearly everyone is guilty?

The warm weather—the active life we lead—the close daily association with others—all make perspiration odour particularly noticeable.

We must perspire—or die. Even on cool days our millions of pores continually give off invisible perspiration—often as much as a quart of waste every 24 hours.

The Danger of Offending Without Realizing It

Whether you see this waste moisture or not—it is always odorous. And

A Mid-Summer Special on LIFEBOUOY SOAP is now available at your Dealer's

it spares no one! Financier or labourer—society leader or servant—all may offend if they don't take precautions.

Nor, unfortunately, can we tell when we ourselves are guilty of unpleasant perspiration odour.

For once we become accustomed to an odour, our sense of smell becomes deadened to it. That's why even the most fastidious people—the very persons who think they are safe—are often among the chief offenders.

LEVER BROTHERS LIMITED, TORONTO

Don't Risk Embarrassment

It's easy now to avoid perspiration odour. Simply wash and bathe often with Lifebuoy, the deodorizing toilet soap.

Just as its mild, antiseptic lather protects health by removing germs—so does it prevent perspiration odour by purifying pores.

And you'll be delighted to see how fresh and clear Lifebuoy's antiseptic lather keeps complexions. Like millions of others, you'll favour it for every toilet purpose.

Note Its Hygienic Scent

You will learn to love Lifebuoy's clean scent which proves Lifebuoy purifies, yet which evaporates after rinsing. Use Lifebuoy a week and you'll use it for life. Get some today.

AND PROTECTS HEALTH

spending a week in this district inspecting mining properties.

Charlie Clay of Anyox spent a few days in town last week.

J. Sinclair and H. Loakes, who were employed at the Toric mine, left last week for Vancouver.

STEWART

L. H. Chapman and M. R. Benischek, Alice Arm mining men, paid a visit to Stewart last week.

Extensive improvements are being made on the road from Stewart to the wharf. Surfacing operations are about half completed and the application of tar will start within the next few days.

The local Canadian Legion held a smoker last Thursday night. There were addresses by Rev. Water Allen Rev. Father Lenny, O.M.I. A. Macaulay, Jack Scott and H. W. M. Rolston.

Indoor baseball is being inaugurated in Stewart. Equipment has been ordered and there will be two teams—married men under the leadership of Jimmy Gunn and single men management by Jack Brooks.

The Public Utilities Co. Ltd. of Stew-

art has elected officers as follows: president, R. M. Stewart; vice-president, D. W. McLeman; managing director and secretary-treasurer, L. S. Davidson; directors, J. W. Stewart and P. S. Jack.

The Vancouver brokerage firm of Davidson & Davidson has thrown up the Lurky Strike and J. J. J. groups of claims, this action following a visit to the camp by W. Davidson, a member of the firm.

Jack Fitzgerald has taken up a crew of men to carry out work on the Silver Basin group which consists of six claims and adjoins the Big Missouri on the east, lying between it and the Salmon River glacier.

LAND ACT

NOTICE OF INTENTION TO APPLY TO PURCHASE LAND
In Prince Rupert Land Recording District and situate about 5 miles from the mouth of Knutze River.

Commencing at a post planted one foot distant from the witness post on the West side of Lot 172, thence westerly 60 chains; thence southerly 30 chains; thence easterly 50 chains; thence northerly 10 chains, and containing 100 acres, more or less.

F. PARDOE WILSON, Applicant.
Detroit Western Mining Co.
Dated 18th April, 1928.

LAND ACT

NOTICE OF INTENTION TO APPLY TO LEASE LAND
In Prince Rupert Land Recording District and situate adjacent to Allford Bay, Moresby Island, Skidegate Inlet, Queen Charlotte Islands.

Commencing at a post planted on the high water mark of an island; thence following the high water mark around the island to point of commencement, and containing one acre, more or less.

PACIFIC MILLS, LIMITED, Applicant.
Donald Wilbur Hodson,
Agent for Pacific Mills, Limited,
Dated May 3, 1928.
