ADMITTALE STREET

#### SHAEW ALK EXCLES

Many people do not realize that the rules for the if it were not for the necessity of midewalk are the same as for the street. Rensons walking should keep to the right and if overtaken should pass on wasterner the left of the person overtaken. This is the rule in almost [] [ ] all kargiush speaking countries including Bertain.

## SOTTOE BADGO PACE

Special altention is drawn to the radio page published doday for for the first time. It is intended to make this ker for W. G. Wilson President a kegular deature, probably every Tuesday.

France Rapert and the people of the country districts around should be particularly interested in this page. Eadio is likely to play a much more important part in our take an fullance than it does today. Improvements to both will be included in the visit of Rev. broadcasting and reception are being constantly made, itr. W. G. Wilson, E. C. president To the person in the country a radio set is almost a ne- of the United Church of Canada. accounty, By means of it he gets many of the advantages of cuty life such as music and public meetings, educational and arrangements are being made dectures and other advantages. To those intending to for him to visit Terrace in the spurchase a gadio secesying set see suggest it is best to morning and Prince Enpert in the buy from local dealers so that their needs may be looked evening of Sunday, October 25. WILLIAM BUREY WAY.

### ..... ALE ROUTE TO RUPERT i(Kumonton Bulletin)

Barring the six months of the year when they are coated with ice, the trial flight across Canada demon- Head, Ontario and took an active strated that the lakes of western Canada are sufficiently interest in all the affairs of the darge, free of obstruction, and well-located to provide good great Presbyterian General Aslanding places for sea planes operating on a trans- Canada air mail route via the North Saskatchewan valley. For winter operation the lakes will provide equally good landing places for the land type of craft.

That nature has provided this string of suitable landing from that important seat of learnplaces is one strong reason why the trans-Canada service inc when it is established, should take the central route across the prairie provinces. Another equally good reason is that the Yellow Head Pass offers a crossing of the mountains at a lower level than the Kicking Horse pass. A third good reason is that from Jasper a branch service can be operated to Prince Rupert and other points in northern British Columbia.

Existing contracts, it is said, prevent the establishment of a trans-Canada service at once. Aside from those contracts, the trial flight has established what was all and is'a good presiding officer, roady a matter of certainly, that the best route for a with splendid executive ability goast to goast service is by way of the Saskatchewan,

## BRITISH POLITICAL SITUATION

While both Labor and Liberal parties have disclaimed any desire to co-operate in the coming election it seems how to deliver it. pretty certain that if the Conservatives should emerge with less than a majority an attempt would be made to the city of Vancouver in St. Anform a Labor-Liberal coalition to form a Government drew's church last May. the Fremier being the leager of whichever party has the largest following. It would be the only thing for the two to the General Council at Winniopposition groups to do.

For the convenience of owners of the bonds, the Bank of Montreal will accent the bonds at any time prior to October 15th, and will make payment either by assume a cheque or by placing the amount to the owner's credit in the books of the Bank as may be desired.

"I'WENTY years' mining in British Columbia have yielded nearly 1. 800-million dollars. The last ten years have increased production by 58.9 per cent.

The value of all Canada's production is \$25.70 per citizen, British Columbia's production today, if distributed, would mean \$111.96 per person annually! Our mined and treated tonnage of metalliferous ores reached a record of more than 5-million tons for 1927.

The value of the mining industry to the Province is in the distribution of money in wages, supplies, transportation services, etc. And in this respect, 1927 was a record year!

The 14,000 employees of the mining industry were paid wages totalling 23 million dollars . . . or nearly \$1,700 each . . . the highest average for any Canadian Province.

During the year, distribution of eight million dollars was made in dividends!

British Columbia mines approximately 40 million dollars worth of copper, zinc and lead, a year . . . more than the rest of Canada. In gold and silver, our production ranks second . . . in coal, third; our total annual mining production today being exceeded only by Ontario.

Sound legislation, good mining laws and low fees have encouraged this development and stimulated growth. Although the provincial

mining area has only been superficially prospected within the transportation belt, new fields are developing, new roads and trails constantly being built.

Chattering drills sink deeper and deeper into the hills . . . heavy ores rumble through the concentrators . . . fortunes come tumbling from the treasure chest of British Columbia! What was once only imagined about our mining potentialities, is now proven knowledge. Mining has become our third largest industry... showing over 67 million dollars revenue a year . . . proof that prosperity flourishes in British Columbia.

Capital from Eastern Canada, the United States, Great Britain, France . . . seeks investment. Our great wealth of production, developing so steadily during the past ten years, has established confidence and aroused keen interest in British Columbia's mining future the world over.

Read these announcements and understand your province's progress . . . clip them out and send them to friends. If you desire extra copies of these announcements a note to this newspaper will bring them. Advertise your Province!
