CROWDED OUT OF HIS BERTH

Second Engineer of Morrissey Has to Vacate as Collection Accumulates

An incident which indicates the crowded condition of the little auxiliary schooner Effie M. Morrissey, which returned to port night before last may prove of interest. Junius Bird, second engineer, better known among his fellows as Dick, began to fill his sleeping berth with material gathered on the trip. Gradually the place filled until at last he was bound to vacate it altogether, being crowded out, and found temporary sleeping quarters in the engine room.

Incidentally Mr. Bird is botanical collector for the party and comes from Columbia University.

FOR SWOLLEN JOINTS

Most remedies fail but Joint-Ease succeeds.

It's for joint troubles only, whether in ankle, knee, hip, elbow, shoulder, finger or spine—whether rheumatic or not. It makes up stiff, inflamed, painful, creaky joints so quickly you'll be astonished. Two seconds' rubbing and away it goes through skin and flesh right down to the bone and ligaments—that's why it succeeds. Ask any reliable druggist.
