RADIO ASS'N. FORMED HERE

Initial Object of Organization Will be to Bring About Improvement in Receiving Conditions

OFFICERS ELECTED

Its main object for the time being at least being to bring about an improvement in conditions for reception which at present are not generally satisfactory in this city, the Prince Rupert Radio Association came into being at a meeting last night in the City Hall of some thirty-five local radio owners and fans. The situation was thoroughly discussed for about two hours and it was decided to take the matter up with the city and to obtain assistance, if possible, from the federal authorities.

The meeting was opened by D. C. McRae who moved that F. W. Chandler, the moving spirit in getting the gathering together, take the chair. A resolution to form a radio association was passed and the following officers were then elected:

President—S. V. Reith.
Vice-president—
Secretary-treasurer—Lawrence Lambly.
Executive—Felix Batt, Norman Kinslor and Reg. Webber.

Disturbances Discussed
There was a free discussion of disturbances hampering radio reception in the city, the consensus of opinion being that the municipal

light and telephone system was largely responsible. It was almost impossible to use a radio set at all in the downtown section of the city, it was stated. A number of interesting ideas were presented and it was finally decided that the officers and executive, together with W. R. Love and D. C. Stuart, should form a delegation to meet the city council at its next meeting and put the position fully before the municipal authorities with a view to obtaining an improvement. The federal government will also be communicated with and the request will be made that an expert be sent here to locate the trouble and, if possible, have it straightened out.

It was decided to make the membership fee in the association \$1.00 and the following members then joined up: D. C. McRae, Fred Riffou, H. R. Smith, J. Thomas, Mrs. Silversides, S. V. Reith, M. L. Stepp, W. R. Love, R. E. Webber, D. McCorkindale, S. E. Parker, D. C. Stuart, M. Alban, F. W. Chandler, J. L. MacLaren, E. Berry, C. G. Ham, A. Young, R. V. G. LePine, Mrs. T. H. Johnson, A. G. Bartlett, Lawrence Lambly and Albert Ertsevaag.

A. M. Johnson, K.C., crown prosecutor for the province will arrive in the city from the south at the end of this week to conduct the prosecution in the murder case at the Assizes next week of Fritz Turner, who is alleged to have shot another fisherman near Ocean Falls during the summer. Milton Gonzales will defend in this case. W. E. Fisher will prosecute in the Anyox attempted murder and local assault cases with L. W. Patmore and Milton Gonzales respectively defending.

HEAD OF MUMMY EXHIBITED HERE

Relic Found by Stoll-McCracken Expedition Excites Much Speculative Comment

Exhibited in one of the show windows of Max Hellbroner's jewelry store, the head of one of the mummies of prehistoric man brought back from the Aleutian archipelago by the Stoll-McCracken expedition for the American Museum of Natural History at New York is the subject of contemplate scrutiny by most passersby. The general appearance of the well preserved countenance seems to be distinctly Oriental which would indicate that some time in the dim, distant past dwellers from the other side of the Pacific did reach this side as paleontologists believe. The eye sockets are somewhat slanted and the forehead fairly long. Through the lower portion of the bone of the prominent nose over the upper lip is a copper colored pin holding agate-like stones at either end, an apparently barbaric adornment. Hair on the head is dark and long though fairly thin, coming down over the temples in the fashion of side burns. Teeth seem to be in fairly good shape and the face is of a brownish color and dusty appearance.

Morte Craig has been enjoying holiday life in Seattle recently by taking in some of the new shows. At the week-end he saw "Lilac Time" and Lon Chaney in "Night Life in New York." He has also been seeing some New York grand opera.

Week-end Specials
